**Dr. Arastu Prabhakar**

**New Dimensions of K.P. Astrology** is an extension of the research by great savant of astrology late professor Krishnamurti. The importance of traditional astrology can neither be mitigated nor ignored because all systems of prognostication of future have got generated from it. K.P. too is no exception. The book is unique blending of K.P. as well as traditional astrology. The proved principles of traditional astrology have been beautifully incorporated with K.P. to make it more meaningful and trustworthy. After making tedious research over a decade of time various confusions which persisted even in the books of K.P. have been sorted out with logical explanations. In the present time the utility of horary astrology as compared to natal astrology is much more. Horary astrology has given rise to mobile astrology or telephone astrology.

**Dr. Arasatu Prabhakar** the author of **Marriage and Prostitution**, is an eminent astrologer of India. His various books on astrology like *The Third Eye of Vedas*, *Horary Astrology* (Hindi) (Nishkam Peeth Prakashan); A Novel Approach to predictions, have already made rapid strides. He delivers lectures on K.P. Astrology he was awarded doctorate by Vikram Shila University, Bhagalpur, Bihar for his research work on astrology.

## PREFACE

After overwhelming response of *Times Prana Jyotish* (Hindi) and *Horary Astrology – a Novel Approach to Predictions* (Nishkam Peeth Prakashan, R-12A, Hauz Khas, New Delhi), *The Third eye of Vedas* (Diamond Publication, New Delhi), the necessity of a book in the wake of research conducted over the influence of planets on human life, covering all aspects of day-to-day life, was greatly felt. There are many problems that emerge in day-to-day life and cannot be solved with the help of natal astrology. Such questions can effectively be dealt with only horary astrology. The present book is the outcome of such thoughts. K.P. astrology is getting momentum day by day due to its *practical utility* and for making *scintillating predictions*. **New Dimensions of K.P. Astrology** is an extension of the research by great savant of astrology late professor Krishnamurti. The importance of traditional astrology can neither be mitigated nor ignored because all systems of prognostication of future have got generated from it. K.P. too is no exception. The book is unique blending of K.P. as well as traditional astrology. The proved principles of traditional astrology have been beautifully incorporated with K.P. to make it more meaningful and trustworthy. **After making tedious research over a decade of time various confusions which persisted even in the books of K.P. have been sorted out with logical explanations.** In the present time the utility of horary astrology as compared to natal astrology is much more. Horary astrology has given rise to mobile astrology or telephone astrology. The queries need not present himself or herself before the astrologer but simply can ask any question any time from any part of world on mobile or telephone. Within 10 minutes he is given clear cut answer either in yes or no. Thus horary astrology has saved not only the time of people but also their energy and money. There is a some sort of confusion over selection of ruling planets. **This confusion is not only present**

**in the software of astrology but also in the book of K.P. After solving more than two thousand questions of horary astrology I have reached the conclusion that selection of ruling planets is almost incorrect and erroneous. Proper explanations have been given in the book over selection of ruling planets. Another important feature of this book is that practical case study examples have been classified housewise. Now it is very simple and convenient for the readers to select to which query which house or cusp is to be considered. A few questions for which no particular house is judged have also been included in this book so that readers may become familiar with such type of queries.**

**I would like to bring to the attention of readers that any book of the world is only a source of information. The intellect and wisdom convert it into knowledge. Thus the ultimate source of knowledge is intellect and wisdom of the readers. I would also like to make it clear that the contents of whole book are the outcome of research and deep concentration only on horary astrology. Each sentence and all the examples included in the book have been found to be practically correct without exceptions.**

The theory part of this book is absolutely based on proved cases; therefore each word and sentence is important for the readers. Specific comments have also been given in a few cases in which confusion may arise in the mind of readers.

I hope readers will give warm response to the book. I also request the readers to bring to my knowledge any fallacy or missing part which they think ought to be included in the book.

I am thankful to all my clients whose continuous interaction helped me to deal with questions of different nature and varieties.

I owe my sincere thanks to the editor and publisher of this book, Shri Narendra Verma of Diamond Publication for bringing out this book. Last but not the least I pay my respects to Shri Daya Shankar (I.R.S.), an eminent Vedic as well as K.P. Astrologer.

I bow my head before almighty Lord Ganesha for his grace which ignited in me the passion for astrology.

## Foreword

It is a moment of pleasure and delight that eminent writer and astrologer Dr. Arastu Prabhakar has started making public his long researches over K.P. astrology in the form of books. His fifth book on astrology, **The Third Eye of Vedas**, was received with overwhelming response across the country.

The name of late Professor Krishnamurti is well known in modern astrology. He did sincere and serious research in the field of astrology and given it a new dimension. For some time the work of Krishnamurti was neither recognised nor respected by traditional astrologers due to one or another reason. It was only in 1996 when Dr. Arastu Prabhakar, and Shri Daya Shankar (IRS) recognised the importance and face value of the work of Late K.P. Their efforts yielded results and astrologers as a whole came to know about the amazing system of prognostication. Dr. Arastu has gone a step ahead and blended the traditional astrology with that of K.P. to make it a compendium of vast knowledge. He has also tried to bridge the gaps which persisted in the work of K.P. to make it lucid and easily comprehensible. The present book is an almost complete book on horary astrology.

Dr. Arastu Prabhakar a well-known writer of English has excelled in the field of astrology too. His recent-released book on various social and cultural issues, **Marriage and Prostitution**, has rocked the nation. It is very difficult to deduce whether his literary capabilities override his astrological knowledge or his astrological skills have precedence over literary appetite. His lectures on K.P astrology throughout the country have produced many followers who have astonished the clientele by making scintillating predictions.

The present book is an extension of K.P. astrology with practically proved examples. I am grateful to Shri Narendra Varma of Diamond Pocket Books for publishing the work of Dr. Arastu

Prabhakar. I offer my blessings to Dr. Arastu Prabhakar and expect warm response for this book from all lovers of astrology.

## Brief History of Horary Astrology

It is very difficult to answer when horary astrology came into existence. However it could be assumed that with the dawn of human existence astrology too got evolved with the evolution of mankind. *Vedas* have mentioned about astrology. Therefore origin of *Vedas* as well as astrology could be inferred some three thousands years before Christ.

Horary astrology used to be called *Hora Shastra* as per ancient classical literatures. It means horary astrology was studied as a separate branch or distinct subject from general astrology. The word *Horary* is derived from the word *Hora* meaning Hour. In ancient times astrologers used to make predictions on the basis of words uttered by the querent. Later predictions were made on the basis of gestures, *Nadi* breaths, articles in the hand etc. In the time of Prithuyasas, the son of Varahamihira, this system of prediction was developed, refined, rectified and advanced systematically. This branch of astrology flourished in ninth, tenth and eleventh A.D. Many traditional authors have written books on this subject. **Prasnachintamani, Prasnajnanam, Prasnamarga, Prasna Bhusana, Prasnatanttra, Satpanchasika, Prasna-Bhairava, Bhuvan Deepika Prasna Churnamani** etc.

Astrologers used to deliver forecast on the basis of words uttered by the querent or his sitting gesture, direction etc. were the guiding principles to reach the conclusion regarding the query. Then they resorted to different methods of prediction i.e., querent used to mention one number out of 108. Ascendant was erected on the basis of the number as mentioned by the querent and the

results were read. What is the mystery of taking numbers up to 108? The whole zodiac is divided into 27 constellations or *Nakshatras*. Each constellation is divided into four *padas*. Therefore, 27 constellations have  $27 \times 4 = 108$  *padas*. In this way the number up to 108 consists of the whole zodiac. This makes amply clear that constellations were used in making predictions which was recently developed and advanced by Late K.S. Krishnamurti.

Westerners believed that **Seth** was the founder of astrology and existed in 3769 B.C. It is said about **Seholan** that he divided the whole zodiac into 12 parts. He was the first to announce that the sun rotates and his rotation is responsible for day and night. He also divided the elliptic and the divided part was called **Mazzaroth**.

Chaldean in 2600 B.C. studied and advanced this science and was able to maintain a relationship between planets and their impact on life. According to Dr. Thompson, the Sumerians studied the zodiac and the universe. Astrology flourished well in Babylon, Egypt and Greek.

In the field of horary astrology **William Lily** is a well-known name both in India as well as in the West. He lived in 1602-81 A.D. **Alan Leo, Edwin Castle, John Wilson, Charles Hathfied** etc., worked untiringly developed this science. There is some difference of opinion between Indians and Westerners as far as reading of nativity is concerned. Indians take seriously the position of planets in particular house and the aspect among the planets is secondary in importance to them, whereas westerners decide on the basis of aspects formed among the planets. Indians adopt *Niryana* basis while westerners advocate *Sayana* basis.

# Nomenclatures and Explanations

**1. Zodiac** – According to traditional astrology the zodiac commences from a constant point. This constant point is  $180^\circ$  away from *Chitra* (spica) *Nakshatra*. But according to western astrology the zodiac commences from Aries sign  $0^\circ$  degree and retreats back by 50.23 seconds per year.

**2. Sayana and Nirayana system** : According to western astrology the sun is pivot to calculate or delineate the results. Moon is the central point for all calculations in Indian astrology. According to western astrology the Sun moves on Aries sign to between 21 March to 20 April while the Sun moves on Pisces sign between this period as per Hindu astrology.

Example – The position of sun as per *Nirayana* system on 21 March 2002 at 5.30 am (I.S.T.) is

$$11S\ 6^\circ - 18' - 46''$$

In order to get *Sayana* position of the Sun, add *Ayanamsa* of this year to *Nirayana* position of the Sun.

$$Ayanamsa\ (K.P.\ -\ 2002) = 23^\circ - 46' - 56''$$

$$11S\ 6^\circ - 18' - 46''$$

$$+ 23^\circ\ 46'\ 56''$$

$$29^\circ\ 64'\ 102''$$

$$\text{Or } 0S\ 0^\circ - 5' - 42''$$

**Conversion Formula is :**

i. *Sayana* position of the planet - *Ayanamsa* of that year = *Nirayana* position

ii. *Niryana* position of the planet + *Ayanamsa* of the year = *Sayana* position

**3. What is *Ayanamsa*?** In western astrology or *Sayana* system for the calculations of constellations and planets an imaginary constant point is conceived. This constant point never changes. Therefore the position of constellations and planets also does not change. The distance between this constant point and vernal equinox (the beginning point of Aries sign) is called *Ayanamsa*.

The tropical and sidereal points coincide in 285 A.D. On 22 March 285 A.D, the tropical and sidereal points were the same i.e.  $180^{\circ} - 00' - 03''$ .

As per late K.S. Krishnamurti, the tropical and sidereal points were the same in 291 A.D. Therefore, there is a difference of six minutes between the *Ayanamsa* of N.C. Lahari and that of Krishnamurti. Horoscope prepared on the basis of K.P. must strictly follow *Ayanamsa* as propounded by late Krishnamurti.

**4. What is Day :** The period from sunrise to next sunrise is termed as day in traditional astrology while in civil time the day changes after 12.00 midnight.

Example : A baby is born at 3.00 midnight on 3 March 2002. The Sun rises at 6.45 am on 3 March 2002 and at 6.46 am on 4 March 2002. As per traditional astrology the date of birth of this baby is 3 March while as per civil time it is 4 March. In horary astrology always take civil time because day is one of the important ruling planets.

**5. House or *Bhava* and Cusp :** According to Indian astrology the zodiac is divided into twelve parts. Each part is called house or *Bhava*. The longitude of zodiac is  $360^{\circ}$ . Therefore each part is of thirty degree in longitude. The word *cusp* though signifies a house yet it has different meaning from general sense of a house or *Bhava*. Cusp is actually the beginning point of a house. The beginning point of a house is considered to be very influential as well as powerful. This is generally a western concept and quite scientific in nature. In Placidus system of house division each *Bhava*

or house varies in longitude. A particular *Bhava* may be of 30 degree or more or less from 30 degree but the total of 12 cusps or houses will always be 360 degrees in longitude.

**6. Transit or Gochara :** The entrance of the planet into the sign is called transit or *Gochara*. The transit effect of the planets is studied in respect to the position of moon at the time of birth. Now-a-days many astrologers read transit results in respect to ascendant.

**7. Which House Signify Father :** Few astrologers read results pertaining to father from tenth house. The logic behind is that since fourth house denotes mother seventh to fourth house is tenth house. However, many astrologers assign ninth house to father. We take ninth house as the seat of father. In horary questions pertaining to father always take ninth house for judgment.

**8. Constellation :** There are 27 constellations. Though one more constellation, i.e. Abhijeet, find place among the constellations but it is not used. Each constellation measures  $13^{\circ} - 20'$  or 800 minutes in longitude. These 27 constellations are divided among nine planets. Each planet consists of  $2\frac{1}{4}$  stars or 9 *Padas*. These 27 constellations are further divided into 249 parts and each part is called sub-lord.

**9. Sub Lord :** The 27 constellations were divided into 249 parts. Each part is called sub lord. It was the valuable contribution of Late K.S. Krishnamurti to the astro-world. How this sub lord is worked out and what it signifies has been explained elsewhere.

**10. Ruling Planets :** It is also an innovation of K.P. In order to reach the timing of any event ruling planets are most helpful. With the help of ruling planets one can pinpoint the event with correct date and time.

**11. Significators :** It is also a new concept. Significators signify the matter in question. In fact the significators hypothesis rests on the use of constellations lord in predictive astrology.

## Importance of Horary Astrology

The utility of any science, whether it is astrology or any other subject, lies in the fact what the society in general gets benefit of it. If any subject ceases to yield benefic results to society it becomes obsolete in due course of time. Time is an important factor in astrology. In fact astrology cannot be imagined without time. Therefore, in some sacred texts time is declared to be God. Horary astrology has greater utility than natal astrology in today's fast changing world.

1. Almost in all the horoscopes, time is not recorded correctly. This error lies in the fact that even two watches in the same room do not show identical time. When a baby is born either in hospital or in a nursing home the watch in the labour room is un-identical to the watches of the parents waiting outside. The difference between watches may range from four minutes to eight minutes. **Minute difference of three to four minutes changes sub lord of cusp which ultimately changes the reading of entire nativity.**

2. The principles governing natal astrology cannot be verified easily, whereas predictions made in horary astrology may be verified within hours, days or months because query is always related to coming days or months. Therefore, horary astrology is the best method for carrying out research in the field of astrology.

3. Horary astrology works on certain proved principles. The significations of planets and houses can be easily ascertained. There are many significations of planets and houses but the particular

signification of a particular planet or house is only known with the help of horary astrology.

4. Pinpoint prediction devoid of double-meaning sense could be possible only in horary astrology. In horary astrology the answer is given either in Yes or No. Whereas horary astrology gives the exact date and time for the fructification of any event, it is never possible in natal astrology.

5. Day-to-day events like arrival of a friend, **light going or coming back**, rumour false or true, reservation of berth in train possible or not, love affairs would materialize or not, etc., can be answered only by the horary astrology.

6. Horary astrology has greater utility when question pertaining to winning or losing of three or four persons who are in election fray comes up. It deals effectively with such questions.

7. Horary astrology is also helpful in deciding bride and bridegroom among the list. It not only clearly and effectively decides but also gives precise judgment about the character and nature of bride and bridegroom.

# Ancient Textbooks of Horary Astrology

The principles enunciated in traditional textbooks on horary astrology can not be branded as the whole thing in general. It should be admitted candidly that progress made in recent times in astrology is the outcome of serious work on traditional books. Therefore the importance of traditional astrology can neither be minimized nor overlooked.

The principles found in old books are cosmopolitan in nature and deep study of these principles reveals unfailing predictions.

In today's fast-moving world it is not possible to give much time and energy to study these principles and majority of astrologers need easily memorable, research-proven and least time-consuming formulae which could be applied even while moving on a busy road.

For the benefit of the readers, translations of a few old books on horary astrology have been made:

### ***Prasna Gyana :***

1. Bhattotpala is the author of this book and it commences with bowing to all the planets. (*Sloka - 1*)

2. Horary astrology never fails, boldly declared Bhattotpala. Ten conditions of planets are to be kept in mind before answering any horary question. (*Sloka - 2*)

The ten conditions are as follows :

i. ***Deepta*** : If the concerned planet is found to be either in exaltation sign or in *Mooltrikona* sign, the planet is said to be in *Deepta* stage. This condition shows good results.

ii. **Swastha** : When the planet is found to be in own sign, the condition is called *Swastha* and shows good results.

iii. **Pramudita** : Planet in friendly sign. Result is moderate.

iv. **Shanta** : The planet if placed in the *Vargas* of any benefic planet is called *Shanta*. Maharishi Parasara propounded *Vargas kundali* viz. *Navamsa*, *Dasmansa*, *Dwadasamsa* etc. If planet is found to be in benefic sign in these *Vargas* it is called *Shanta*. Such planet offers positive and favorable results.

v. **Shakta** : The planet if not eclipsed is called *Shakta* and the result of such planet is good.

vi. **Prapidita** : The planet defeated in war by another planet. The result is bad.

vii. **Deena** : The planet if posited in inimical sign is called in *Deena* condition. Result is bad.

viii. **Khal** : When planet is placed in the sign of a malefic planet. Result unfavorable.

ix. **Vikala** : When planet is eclipsed. Result is bad.

x. **Bheeti** : When planet is debilitated or in the sign of inimical planet. Result is bad.

3. The face of querent should always be towards east. The seat of the astrologer be adjusted in such a manner that the querent is facing either east or Northeast. (*Sloka - 3*)

4. The querent must offer flowers, fruits, clothes etc to the astrologers. The place of astrologer is surrounded by calm and pleasant environment. The querent should be attended to either in the morning or during midday. Preference is given to morning time. Avoid answering in the evening or during sunset. (*Sloka - 4*)

5. If benefic planets viz. Venus, Mercury or Jupiter be posited or aspect the house concerned with query, the result is favourable. (*Sloka - 8*)

6. Positive result may be declared if 1, 4, 7, 8, 10 and 12 Houses are devoid of placement of malefic planet and 1, 4, 7, 10 houses are occupied either by lord of ascendant or friend of lord of ascendant. (*Sloka - 11*)

7. Benefic planets (Mercury, Jupiter, Venus) if placed either in fifth house or ninth house or malefic planets (Sun, Mars and Saturn) are placed in 3, 6 or 11 houses, the result obtained in such condition is good. (*Sloka - 12*)

8. If malefic planet is posited in horary ascendant then the result is diseases and dispute. If malefic planet is placed in fourth house, the result is disagreement among the relatives. (*Sloka - 13*)

9. If seventh house of horary chart is occupied by malefic planet, there are obstacles and impediments in the journey with difficulties. All undertakings show failure if tenth house is occupied by a malefic planet. If malefic planets are conjoined with benefic planets in the above said conditions then malefic planets create obstacles while benefic planets remove obstacles and give auspicious results. (*Sloka - 14*)

10. If horary ascendant falls in fixed sign viz., Taurus, Leo, Scorpio or Aquarius the querent will not be defeated. He suffers from diseases; stays at one place but begets the desired position. (*Sloka - 15*)

11. If horary ascendant happens to be either Aries, Cancer, Libra or Capricorn one will be defeated, free from diseases, make journey but will not have any position or improvement in status. (*Sloka - 16*)

12. If benefic planets are posited in 1, 4, 5, 7, 9, or 10 houses and malefic ones are posited in 3, 6, 11 then success and return of gone person is indicated. (*Sloka - 17*)

13. If Jupiter or Venus is placed in either second or third house the gone person will return soon. If such benefic planets are placed in fourth house, it indicates quick return. (*Sloka - 19*)

14. If Mercury and Venus are placed second or twelfth to either ascendant or moon sign the native will return soon. (*Sloka - 20*)

15. The enemy will come with forces if ascendant and *Navamsa* fall in movable sign (opposition, litigation or enmity can also be taken as result of such conditions). If moon is placed in movable sign, ascendant and *Navamsa* fall in immovable sign and then enemy does not come. (*Sloka - 21*)

16. The enemy can not dare to attack in spite of having adequate might if Mercury, Jupiter and Venus are placed in sixth house and Moon occupies common sign and ascendant happens to be in immovable sign. **(Sloka - 22)**

17. The enemy proceeds but goes back if fifth and sixth houses are occupied by malefic planets (This general condition may be taken as litigation will start on but soon come to an end.) the enemy can reach to the home but will retrace back if fourth house is occupied by malefic planets (End of litigation). **(Sloka - 23)**

18. The querent will be free from disease if Jupiter aspects ascendant and Moon & Venus are posited therein or Jupiter occupies 1, 4, 7, 10th house. **(Sloka - 28)**

19. The querent will be married if moon is either in 3, 6, 7, 10 and 11th and aspected by Jupiter. If moon is aspected by malefic planet it indicates delay in marriage. **(Sloka - 29)**

20. The querent will be married or one will be married if benefic planets are placed in 1, 4, 5, 7, 9 or 10 houses. The characteristics of future partner i.e. status, character, outer appearance etc., will be good, if seventh house is occupied by benefic planet.

**(Sloka - 31)**

21. Child is born if benefics are placed in fifth and eleventh houses. Male child is born if the Sun, Moon Jupiter and ascendant fall in 1,3,5,7,9,11 signs. **(Sloka - 32)**

22. Female child is born if said planets and ascendant falls in 2, 4, 6, 8, 10, 12 signs. If a few planets and ascendant falls in male sign and a few in female signs then sex of to-be-born child should be determined according to the strength of planets falling in a particular sign. Male child is predicted, if Saturn falls in either 1, 3, 5, 7, 9, 11 houses. **(Sloka - 33)**

**Uttarkalamratam :** A few *slokas* of *Uttarkalamratam* which are related to horary astrology have been explained here for the benefit of readers:

1. Querent must offer one fruit as donation to astrologer before asking any question. If querent is asked to mention a number between 1 to 108, then he must give any one number between 1 to 108. On the basis of the number as mentioned by the querent, calculation must be done to foretell future whether it is favourable or unfavourable. Astrologer must pray his or her family deity and then offer prediction about past and future. (*Sloka -2*)

2. The query is related with secret relationship with women other than his wife if ascendant falls in Virgo sign. The query is related with business if ascendant happens to be Libra. The Scorpio rising indicates query related with fear from enemies. Sagittarius sign indicate lost money. Capricorn sign reflects own unscrupulous actions. Aquarius sign indicates prestige, status and home. Aries sign indicates query to be related with some person. Taurus rising indicates quadruped. Gemini rising indicates pregnancy. Cancer sign indicates court and court cases. Leo sign indicates government and government related activities. Astrologer must judge the strength of Ascendant and *Navamsa* Ascendant. The prediction must be given after weighing the strength of Ascendant or *Navamsa* ascendant.

3. The result of the query will be experienced soon if the lord of the house related with the query is exalted. If lord of the house occupies own sign the result is experienced after some time. The result will be experienced after some time if lord of the concerned house is placed in a friendly sign. If lord of the house does not occupy either exalted sign, own sign or friendly sign then the result will be experienced after some years. The result of the question asked will miserably fall if the lord of the house is associated with or aspected by malefic planets. The question is honoured with success if lord of ascendant is placed in the house concerned with query or lord of ascendant is aspected by benefic planets. (*Sloka - 10*)

4. The result of the query is obtained very soon if the lord of the house concerned with query and lord of ascendant are placed in auspicious houses or aspect each other. (*Sloka - 19*)

## ***Shatpanchasika : (Chapter - 1)***

1. Prithuyasas prays lord sun and writes a book named ***Shatpanchasika*** for the benefit of astrologers. ***(Sloka - 1)***

2. The rising sign at the time of query indicates condition, position and transfer. Whether efforts will be crowned with success or miserably fail is indicated by fourth house. The seventh house indicates arrival of a person if Ascendant or *Navamsa* ascendant falls in *sheersodya* sign. One will meet failures if ascendant is occupied by malefic planet or *Navamsa* falls in *Prithodya* sign. One begets success after failures if malefic as well as benefic planets are associated with *Lagan* or *Navamsa Lagan*. The person will return to his home if any planet enters into fourth house. ***(Sloka - 2)***

3. The results obtained are auspicious if lord of the house concerned with query aspects its own house or benefic planets are placed therein. The contrary results are obtained if malefic planets either aspect concerned house or posited therein. This principle works for both natal as well as for horary astrology. ***(Sloka - 3)***

4. Efforts will be crowned with success if

- i. Benefic planets are placed in Ascendant
- ii. *Navamsa* ascendant falls in a benefic sign
- iii. Ascendant or *Navamsa* ascendant falls in *Sheersodya* sign.

Ascendant or *Navamsa* ascendant if occupied by malefic planet indicates failure or same results are obtained if ascendant happens to be in *prithodya* sign. But if both malefic as well as benefic planets occupy Ascendant or *Navamsa* ascendant then success is assured after some failures. ***(Sloka - 4)***

5. The lost articles are recovered if ascendant is occupied by moon and aspected by Jupiter or Venus. Auspicious results shall be further begotten if benefic planets in adequate strength are placed in eleventh house. ***(Sloka - 5)***

**Comments :** The principles propounded in traditional texts cannot be outrightly rejected. The aim behind the translations of these texts is to make readers familiar with the knowledge of different principles so that they could understand the basic nature of planets and signs.

Only those *shlokas* have been translated which have been found to be useful to readers. Readers may take long time to verify the practicality of the principles. But these principles can provide adequate knowledge about the nature and behaviour of the planets as well as signs and may be applied in solving the day-to-day problems of horary astrology. Above principles can also be used in K. P. astrology. It will not only enhance the quality of horary astrology but also make it refined and rectified.

I too have found a few principles to be absolutely correct. For example *Uttarkalamratam Sloka* 10 states that result of the question is obtained shortly if the lord of the house concerned with query is exalted. Similarly *Shatpanchasika* chapter 1 *Sloka* 5 states that lost article is recovered if moon in ascendant is aspected by Jupiter and Venus. Both examples have been found to be correct in many cases.

The foundation of astrology lies in the permutation and combination of lights. If astrologers give logic in the explanation of any combination of planets then the mystery of planets can be revealed. In foregoing examples *Sloka* 5 of *Shatpanchasika* chapter 1 states that lost articles will be recovered if ascendant with moon is aspected by Jupiter and Venus. The logic behind is that moon and ascendant both are aspected by two most benefic planets viz. Jupiter and Venus. Both the *Lagans* i.e., Moon and Lagna are under the influence of most benefic planets.

Thus the impact of lights emanating from various planets is studied in astrology. Whenever a planet comes at a particular degree in space many important events take place. Research should be made on such particular degrees attained by planets during their motion in zodiac.

## 5

# Significations of Planets and Signs

**The Sun :** Sun is the significator of soul, represents father of the native and a source of divine knowledge. Sun is known as Kroor Graha—means intensity to results. Following significations are ascertained from the Sun particularly in horary astrology.

1. Father, relationship with father, longevity of father
2. Popularity and degree of popularity
3. Service
4. High post in service
5. Ministership
6. M.L.A., M.P.
7. Governor
8. Eldest son
9. Eyesight
10. Intercaste marriage
11. Constitution
12. President

**Moon :** Moon is a very important planet in horary astrology. Moon is the significator of mind. Therefore it reveals the immediate condition of mind. Non-correlation between query and the position of Moon in horary chart indicates insincere attempt to test the knowledge of the astrologer. The natural and sincere desire to know the result of horary question absolutely gives pinpointed correct results. The Moon assumes greater significance in horary

astrology; therefore its study from various angles is necessary. These are the following significations of Moon:

(i) Mind, (ii) Mother, (iii) Water, (iv) Ups and down (v) Imagination, (vi) Dream, (vii) Daughter, (viii) Gains through women, (ix) Change and changeability, (x) Happy family life, (xi) Sea voyages (xii) Brain (xiii) Young girl (xiv) Rains, (xvi) Flood, (xvii) Milk etc.

**Rahu and Ketu :** Indian astrology does not assign any particular signification to Rahu and Ketu. Rahu generally denotes thief, jail and jailor. Ketu shows liberation or final emancipation. Rahu and Ketu have got special attention and importance in horary astrology. Therefore, appropriate discussion on Rahu and Ketu have been included for the benefit of the readers at appropriate place.

**Uranus, Neptune, and Pluto :** Westerners have done a lot of research on these planets. Though late Krishnamurti had advocated the distinct effect of these planets yet he himself did not take into account their impact on human beings. I too personally have not verified their impact on human behaviour and nature. Therefore nothing is written here about these planets.

**Signs :** *Krishnamurti Paddhati* has not given much importance to the signs. However this unique link of astrology as a whole can neither be underestimated nor overlooked in any way because it is primary determinant to the strength of any planet. Secondly in various questions of horary astrology viz. theft, marriage etc direction of materialization of event is indicated by the signs.

# Houses

**Introduction :** As per Hindu traditional astrology the entire zodiac is divided into twelve equal parts. Each equal part is called house or *Bhava*. Each *Bhava* or house measures  $30^\circ$  in longitude. Thus  $30 \times 12 = 360^\circ$ . Hence the entire zodiac is  $360^\circ$  in longitude. *Krishnamurti Paddhati* has used the word 'cusp' for a particular *Bhava* akin to the concept advocated by western astrologers. Cusp is actually the beginning point of a house. K.P. advocates the birth chart or horary chart to be cast on Placidus system. Placidus system encompasses unequal house division in sharp contrast to equal division as propounded by ancient Indian astrology. In Placidus system a cusp or house varies from the other house in longitudes i.e. a particular *Bhava* may be of thirty degrees or less than thirty degrees or more than thirty degrees.

Each house denotes a number of significations. Here a number of significations of each house is given for the benefit of the readers. These significations without an iota of doubt can be used both in horary as well as in natal astrology.

## Sub-lord

The zodiac is divided into 27 constellations or stars. Each constellation is  $13^{\circ} - 20'$  or 800 minutes in longitude. Each constellation is divided into 4 quarters or *pads*. Each sign or Rasi consists of  $2\frac{1}{4}$  constellations i.e. 9 *pads*.

Each sign or *Rasi* =  $30^{\circ}$  or  $30 \times 60 = 1800$  min.

Each quarter of constellations =  $3^{\circ} - 20'$  or  $(3 \times 60) + 20$   
= 200 minutes

Each sign consists of 9 quarters of constellation i.e.

$200 \times 9 = 1800$  min.

Each constellation has four quarters. Therefore 27 constellations will have  $27 \times 4 = 108$  quarters.

These 108 quarters have further been divided into 249 parts. Each subdivided part is called **sub-lord**.

For example Aries sign consists of 4 quarters of Ashwini star, 4 quarters of Bharni star and one quarter of Kritika star.

Ashwani star is ruled by Ketu and have been allotted 7 years out of 120 years of *Vimshottari dasha* pattern. Ashwini star is  $13^{\circ} - 20'$  or 800 min. in longitude. Now 800 min of Ashwini star are further divided in respect to 7 years of Ketu. The result obtained is called sub or sub-lord of Ketu.

**How to work out sub-lord :**

Sun =  $800 \times 6 / 120 = 40$  min

Moon =  $800 \times 10 / 120 = 66.66$  min

Mars =  $800 \times 7 / 120 = 46' - 40''$

Rahu =  $800 \times 18 / 120 = 120$  min or  $2^\circ - 0'$

Jupiter =  $800 \times 16 / 120 = 106.66$  min or  $1^\circ - 46' - 40''$

Saturn =  $800 \times 19 / 120 = 126.66$  min or  $2^\circ - 6' - 40''$

Mercury =  $800 \times 17 / 120 = 113.33$  min or  $1^\circ - 53' - 20''$

Ketu =  $800 \times 7 / 120 = 46' - 40''$

Venus =  $800 \times 20 / 120 = 133.33$  min or  $2^\circ - 13' - 20''$

Ashwini is the first constellation of Aries sign ruled by Ketu. Therefore the first sub will be of Ketu followed by Venus, Sun etc. It could be understood as, in Jupiter *Mahadasha* and Ketu *Antardasha* the first *Pratyantara dasa* will be of Ketu, second belongs to Venus and so on. Sub-lord can also be assumed to be *Pratyantara* lord.

Example 1 - Aries sign consists of four quarters of Ashwini star

$0^\circ - 0'$  to  $3^\circ - 20'$  - Ist quarter

$3^\circ - 20'$  to  $6^\circ - 40'$  - IInd quarter

$6^\circ - 40'$  to  $10^\circ - 0'$  - IIIrd quarter

$10^\circ - 0'$  to  $13^\circ - 20'$  - IV th quarter

In sub-lord calculations the first quarter of Ashwini which extends from  $0^\circ - 0'$  to  $3^\circ - 20'$  has been divided. The first quarter that is ruled by Ketu as per traditional astrology is now divided into 3 parts that are successively ruled by Ketu, Venus and Sun.

$0^\circ - 0' + 46' - 40''$  (sub-extension of Ketu) =  $0^\circ - 46' 40''$  = Ketu

$0^\circ - 46' - 40'' + 2^\circ - 13' - 20''$  (sub-extension of Venus) =  $3^\circ - 0' - 0''$  = Venus

$3^\circ - 0' - 0'' + 40'$  (sub extension of sun) =  $3^\circ - 40' - 0''$  = Sun

When any planet or cusp falls in between these longitude in Aries sign will have sub-lord as per extension it has got as per above calculation.

Example - 2

Aries sign - Bharni star ( $13^\circ - 20'$  to  $26^\circ - 40'$ )

Bharni star -  $13^\circ - 20' - 16^\circ - 40' =$  Ist quarter

$$13^{\circ} - 20' + 2^{\circ} - 13' - 20'' = 15^{\circ} - 33' - 20'' = \text{Venus}$$

$$15^{\circ} - 33' - 20'' + 0' - 40' - 0'' = 16^{\circ} - 13' - 20'' = \text{Sun}$$

$$16^{\circ} - 13' - 20'' + 1^{\circ} - 6' - 40'' = 17^{\circ} - 20' - 0'' = \text{Moon}$$

After adding the value of other sub-lords the extension of other sub-lords is determined. It means if any planet moves or cusp falls between  $16^{\circ} - 13' - 20''$  to  $17^{\circ} - 20' - 0''$  in Aries sign it will have moon as its sub-lord.

**Comments** - The concept of sub-lord is the outcome of research carried over decades by late Krishnamurti. It is positive outcome and has universal applications. The principles enumerated in traditional astrology have their own utility without an iota of doubt. But such principles cannot be applied to know the event of day-to-day activities and miserably fail to answer the questions like— 'light gone, when will it come back?' 'Son gone to school, when he will return?' 'When and which time result of examination will be declared?' There are many more questions pertaining to day-to-day life which can be answered positively with the help of sub lord theory. It is an innovative discovery of astrology which has given scientific approach to astrology.

# Ruling Planets and Significators

The discovery of ruling planets is another milestone of astrology. To pinpoint the timing of events with great accuracy is another great service of astrology by late Krishnamurti. '*Ruling planets*' means the planets which rule the moment at the time of judgement of any question. Ruling planets are worked out from ascendant and the position of Moon at the time of judgement. Ascendant is the basic foundation of planetary influence and Moon is the significator of mind. Mind receives influence of planets more quickly and moreover one has to interact with worldly matters with the application of mind. Secondly the position of Moon either in horary chart or natal chart is considered to be ascendant and called Moon Lagna. Desires, will etc are the functions of mind. Therefore, planets influencing mind and ascendant are taken ruling planets to co-relate query asked and its ultimate future.

**In K.P. there are five major ruling planets :**

- (i) Ascendant lord
- (ii) Ascendant star lord or constellation lord
- (iii) Moon sign lord
- (iv) Moon constellation lord or star lord
- (v) Lord of day

Lord of day means judgment day. Each day is ruled by a planet. Monday is ruled by moon, Tuesday is ruled by Mars and so on. For the benefit of the readers a table showing day and its ruler is given below:

Day	Ruler
Sunday	Sun
Monday	Moon
Tuesday	Mars
Wednesday	Mercury
Thursday	Jupiter
Friday	Venus
Saturday	Saturn

Apart from the above said five ruling planets ***Rahu Ketu too*** are considered ***ruling planets*** with the following conditions:

- (i) If Rahu and Ketu are either associated or conjoined with one or more of the ruling planets.
- (ii) If Rahu or Ketu has occupied the sign the ruler of which in one of the ruling planets.
- (iii) If day lord appears once among the ruling planets, then Rahu and Ketu though conjoined with day lord or occupy the sign of day lord are not reckoned as ruling planets.

The followers of K P in later stage also considered sub-lords of ascendant and the Moon as ruling planets. We have not considered sub-lord of either ascendant or the moon as ruling planets. Sometimes we have considered *Hora* lord as ruling planet replacing day lord. For the benefit of the readers *Hora* table is given below:

Time	Day						
	Sun	Mon	Tue	Wed	Thur	Fri	Sat
6-7 A.M.	Sun	Moon	Mars	Merc	Jup	Ven	Sat
7-8 A.M.	Ven	Sat	Sun	Moon	Mars	Merc	Jup
8-9 A.M.	Merc	Jup	Ven	Sat	Sun	Moon	Mars
9-10 A.M.	Moon	Mars	Merc	Jup	Ven	Sat	Sun
10-11 A.M.	Sat	Sun	Moon	Mars	Merc	Jup	Ven

11-12 Noon	Jup	Ven	Sat	Sun	Moon	Mars	Merc
12-1 P.M.	Mars	Merc	Jup	Ven	Sat	Sun	Moon

4-5 A.M.	Ven	Sat	Sun	Moon	Mars	Merc	Jup
5-6 A.M.	Merc	Jup	Ven	Sat	Sun	Moon	Mars

The *Hora* lord rules the moment at the time of judgment of query. For example, a question is asked on Wednesday at 4 P.M. On Wednesday the *Hora* between 4 to 5 P.M. is ruled by Jupiter. So Jupiter may be taken as *Hora* lord in place of day lord Mercury among the ruling planets. The actual *Hora* is determined with the rising of the sun and extends for one hour as the word *Hora* itself signifies. The first *Hora* is always of the day lord followed by planets in increasing velocities. For example the first *Hora* of Monday is ruled by moon followed by Saturn, Jupiter etc. As the cycle of seven planets ends again new cycle start with first *Hora* lord i.e. the *Hora* lord that ruled the moment at the time of rising of the sun. In the above table a standard time i.e. 6 to 7

A.M. has been taken as the rising time of the sun to any locality of India.

## COMMENTS ON RULING PLANETS :

Ruling planets are very important to decide the future of any event or also speak well whether the desire of the querent will be fulfilled or not. If desire is to be materialized then timing of the event?

Following tips regarding ruling planets would be of immense use to the astrologers :

1. Ruling planets are always linked with the success or failure of the query.

2. If ruling planets are associated with the houses concerned with query and simultaneously the instant *Antardasa* is related with ruling planets the desire of the querent is fulfilled.

3. If ruling planets are concerned with the houses related with query but the instant *Antardasa* is not linked with ruling planets it shows delay or failures of the query.

4. If Rahu or Ketu or both becomes ruling planets, then Rahu and Ketu are considered seriously because Rahu and Ketu are always stronger than the planets.

5. Ruling planets are the only key to select beneficial significators that contribute to materialization of the desire.

6. The delay is portend if any of the ruling planets are in retrogression.

7. The ruling planets, in order of their strength to bestow results, are as follows:

- i) Ascendant lord
- ii) Ascendant star lord
- iii) Moon star lord
- iv) Moon sign lord
- v) Day lord or *Hora* lord

## **Specific comments over selection of ruling planets :**

There is some sort of confusion over selection of the ruling planets. A few sections of astrologers take ascendant lord and star lord of rising sign at the time of Judgment of query even if the question is solved with the help of horary number between 1 and to 249. Here we would like to clarify and emphasise that this way of selection of ruling planets is completely fallacious and may lead to confusing predictions. The sign lord and star lord of ascendant of rising sign are taken only when the query is solved without horary number and simply the judgement time is taken. If one is proceeding with the help of horary number then one should take sign lord and star lord of the horary number. **After solving more than one thousand horary questions, it has been found that sign lord and star lord of ascendant of horary number without exceptions always help to reach right conclusion.** So one should not fall victim to illogical method of selecting ruling planets. The ruling planet taken in Part 2 of this book comprises sign lord and star lord of ascendant or 1st cusp of horary number. Readers must not get confused.

## **SIGNIFICATORS**

The term 'Significators' implies those planets that contribute towards fructification of the results of a particular house or houses.

According to K.P. *Significators* are determined as follows:

- i) The planet or planets posited in a house. Such planet or planets are called occupants.
- ii) The planets posited in the constellation of the occupant.
- iii) The planets posited in the constellation of the lord of the house.
- iv) The lord of the house.
- v) The planets which are conjoined with above said *Significators*.
- vi) The planets those are aspected by *Significators*.

vii) If Rahu or Ketu or both are conjoined with the above *Significators*.

The above *Significators* have been listed below as per their strength to offer the results:

i) The most powerful *Significators* are Rahu and Ketu if they are conjoined with other *Significators*.

ii) Next in strength is the planet that is posited in the constellation of the occupant.

iii) Next in strength is occupant.

iv) The planet posited in the star or constellation of the lord of the house.

v) The least effective is the lord of the house.

vi) The planets other than Rahu and Ketu that are conjoined with *significators*.

vii) The planets which are aspected by *significators*.

The above list shows strength in decreasing order i.e. (i) is more powerful and (vii) is least powerful.

## Cusp (*Bhava*) Determination

There are two methods for the determination of cusp:

i) The first method comprises taking ascendant at the time of judgement.

ii) The second method takes ascendant of the number from the range of 1 to 249 as mentioned by the querent.

**FIRST METHOD:** (Taking rising sign at the time of judgement)

**EXAMPLE:** A question is asked on 17-01-03 at 10 A.M. Place of judgement is Agra.

**SOLUTION:** If the question is solved on 17-01-03 at 10 A.M. then ascendant is worked out. If the question is not immediately solved then later time and date be taken to work out the ascendant. In order to answer any horary question the best method is K.P. However due to shortage of time such questions may be solved as per traditional method. **If question is attended as per traditional method it is advisable that sub-lord of planets must be given serious consideration.** How to work out the cusp is same as mentioned in the second method with little difference. In this method the degree and minutes of rising sign is taken whereas in the second method the *lagan* is taken of the number as mentioned by the querent.

### SECOND METHOD:

**Example:** A querent gave No 137 in between 1 to 249. The question was judged on 17-01-03 at 10.00 A.M.

### HOW TO WORK OUT CUSP:

No. 137 means Libra sign  $18^{\circ}-6'-40''$  (See horaryno table) to  $6S\ 19^{\circ}-13'-20''$ .

In order to solve any horary question with the help of numbers, the commencing number is taken. As horary No. 137 extends from 6S 18°-6'-40" to 6S 19°-13'-20" so commencing part i.e. 6S 18°-6'-40" will be taken. The number 137 shows Libra Lagna 18°-6'-40" of *Niryana*.

Therefore the first cusp (*Bhava*) is 6S 18°-6'-40".

The other cusps are worked out as follows:

1. The longitudes of first cusp are converted into *Sayana* longitude by adding *Ayanamsa* of the year 2003. The reason is that the best book available in the market to work out cusps is Raphael's table of houses for Northern latitudes. The position given in this book is *Sayana* position.

2. The *Ayanamsa* of the year (K.P.) 23°-47'-40"

3. Add this *Ayanamsa* to longitudes of first cusp (*Bhava*).

i.e. 6S 18°-6'-40"

+ 23°-47'-40"

6S 41°-53'-80"

Or

6S 41°-54'-20"

Or

7S 11°-54'-20"

Or

7S 11° - 54' (seconds can be omitted.)

It means: Now the *Sayana* position of 1st cusp (*Bhava*) is 7S 11° - 54'

4. The latitude of Agra is 27° - 11". Open the page of Raphael book where latitude 27° - 11' is given.

5. At the latitude of 27° - 11' the page shows Scorpio 11°-48'. But we require ascendant Scorpio 11°-54'. The difference is 6 minutes. In order to get the value of 6 minutes, the following calculations are made:

i) There are two values given on the page where longitude  $27^{\circ}-11'$  is given  $11^{\circ}-48'$  and  $12^{\circ}-39'$ .

$$\begin{array}{r} \text{Difference:} \quad 12^{\circ}-39' \\ - 11^{\circ} 48' \\ \hline 0^{\circ} - 51' \end{array}$$

ii)  $60 \times 6 = 7'$   
51

i.e. what the value is given for second, third and other cusps add  $7'$  to these values.

6. The value of second cusp in Raphael table is  $8S 11^{\circ} - 0'$ . Add  $7'$  to this value. Thus the second cusp will be  $8S 11^{\circ}-7'$ .

7. Third Cusp =  $9S 12^{\circ} - 0' + 7' = 9S 12^{\circ} - 7'$

8. 12th Cusp =  $6S 17^{\circ}-0' + 7' = 6S 17^{\circ} - 7'$

9. 11th Cusp =  $5S 17^{\circ} - 0' + 7' = 5S 17^{\circ} - 7'$

10. 10th Cusp =  $4S 15^{\circ}-0' + 7' = 4S 15^{\circ}-7'$

11. Now the cusps in *Sayana* position are as follows:

First Cusp =  $7S 11^{\circ} - 54'$

Second Cusp =  $8S 11^{\circ}-7'$

Third Cusp =  $9S 12^{\circ}-7'$

Twelfth Cusp =  $6S 17^{\circ}=7'$

Eleventh Cusp =  $5S 17^{\circ}-7'$

Tenth Cusp =  $4S 15^{\circ}-7'$

12. Now deduct *Ayanamsa* to get *Niryana* position

*Sayana* Position

*Niryana* Position

Ist Cusp =  $7S 11^{\circ}-54' (-) 23^{\circ}-47'-40'' = 6S 8^{\circ}-6'-40''$

IIInd Cusp =  $8S 11^{\circ}-7' (-) 23^{\circ}-47'-40'' = 7S 7^{\circ}-19'-20''$

IIIrd Cusp =  $9S 12^{\circ}-7' (-) 23^{\circ}-47'-40'' = 8S 18^{\circ}-19'-20''$

12th Cusp =  $6S 17^{\circ}-7' (-) 23^{\circ}-47'-40'' = 5S 23^{\circ}-19'-20''$

11th Cusp =  $5S 17^{\circ}-7' (-) 23^{\circ}-47'-40'' = 4S 23^{\circ}-19'-20''$

$$10\text{th Cusp} = 4\text{S } 15^{\circ}-7' (-) \quad 23^{\circ}-47'-40" = 3\text{S } 21^{\circ}-19'-20"$$

13. Now add  $180^{\circ}$  to each cusp to get other cusps i.e. fourth, fifth etc.

First Cusp	$= 6\text{S } 8^{\circ}-6'-20" + 180^{\circ} = 0\text{S } 8^{\circ}-6'-20"$ (Seventh Cusp)
Second Cusp	$= 7\text{S } 7^{\circ}-19'-20" + 180^{\circ} = 1\text{S } 7^{\circ}-19'-20"$ (Eighth Cusp)
Third Cusp	$= 8\text{S } 18^{\circ}-19'-20" + 180^{\circ} = 2\text{S } 18^{\circ}-19'-20"$ (Ninth Cusp)
Twelfth Cusp	$= 5\text{S } 23^{\circ}-19'-20" + 180^{\circ} = 11\text{S } 23^{\circ}-19'-20"$ (Sixth Cusp)
Eleventh Cusp	$= 4\text{S } 23^{\circ}-19'-20" + 180^{\circ} = 10\text{S } 23^{\circ}-19'-20"$ (Fifth Cusp)
Tenth Cusp	$= 3\text{S } 21^{\circ}-19'-20" + 180^{\circ} = 9\text{S } 21^{\circ}-19'-20"$ (Fourth Cusp)

### Comments :

1. In order to solve horary question with the help of number in the range of 1 to 249, the commencing position is taken as evident in the foregoing example in which the commencing position of Number 137 was taken.

2. The longitudes of cusp shows sign lord, star lord and sub-lord of the particular cusp. For example the position of third cusp as shown above is  $8\text{S } 18^{\circ}-19'-20"$ . See this longitude in horary table in Sagittarius sign. This number falls between  $18^{\circ}-6'-40"$  to  $20^{\circ}-6'-40"$  in Sagittarius which means Jupiter sign lord, Venus star lord and Rahu sub-lord of the third cusp.

3. Time is an important factor in horary astrology. According to K.P. the longitudes of the number mentioned by querent does not change with the change of time. The longitude of the number remains the same though the planetary position changes with the change of time of judgement. Suppose a question of Number 137 was to be judged on 17-03-06 but due to some reason this question could not be attended on 17-03-06. Now this question is judged on 18-03-06. In this situation the longitude of cusps

will be same but the planetary position of 18-03-06 at the time of judgement will be taken. The ruling planets will also change with this new time.

4. Cusp determination takes much time. Therefore it is advisable to esteemed readers that they must prepare Cuspal table for all the numbers for the place where astrologer permanently resides. *Ayanamsa* increases 50" every year. This value is negligible as far as change of longitudes of cusp year after year is concerned.

5. The astrologers can also purchase Cuspal table book that is in *Niryana* position and can save valuable time of astrologers. Nishkaam Peeth Prakashan has brought out a table of houses (*Nirayana* position) for the latitude of Delhi.

6. It is also to be kept in mind that the place is also important in working out cusps. If question is judged at Agra as shown in example then latitude  $27^{\circ}-11'$  will be judged. If the same question is judged at Delhi then Raphael's book will be consulted for latitude of Delhi i.e.  $28^{\circ}-39'$ . In that case Cuspal position of various cusps may change and sub-lord will also change though sign lord and star lord will be same.

# SUBJECTS OF HORARY ASTROLOGY

**1. Retrograde planets and their impacts:** There are various theories prevalent in astrological world regarding retrograde planets and their ultimate impacts. According to one school of thought retrograde planets give the result of previous house. Another school of thoughts says that retrograde planets are more powerful to give the result because during retrogression the planet comes near to the orbit of the earth and therefore its impact is greater at the time of retrogression. Whatever arguments may be but it is beyond doubt that retrograde planets have their distinct impacts. The study of retrograde planets is much more important in horary astrology than natal astrology. Retrograde planet has direct relation with the query. Retrograde planets have following effects:

1. Retrograde planet always shows negation in horary astrology.
2. Retrograde planet shows failure of the question asked.
3. If a retrograde planet is posited in the star of a retrograde planet the result is failure of the query.
4. The result will be positive with some delay if retrograde planet is posited in the constellation of planet in direct motion. The positive result will be obtained when the planet in retrograde motion will attain direct motion and reach the position from where retrogression was started.
5. The result after initial delay will be positive if a planet in direct motion is placed in the constellation of planet in direct motion but in the sub of retrograde planet.

6. The result will be absolute negative if sign lord, star lord and sub-lord are in retrogression.

7. The result will tend to be favourable after some delay and impediments, if retrograde planet is posited in the constellation of the planet in direct motion but in the sub of retrograde planet.

8. The result will be delay or failure of the query if any retrograde planet or planets find place among ruling planets. Even day lord or *Hora* lord, the weakest ruling planet among ruling planets, is found to be retrograde, shows at least delay in the fulfilments of desire of the querent.

9. Apart from horary astrology it has been found in natal astrology that retrograde planet weakens the results of the house where they are posited. More than one planet in retrogression if found to be present in natal chart portend a struggling life to the native. The lord or star lord or sub-lord of seventh cusp if found to be in retrogression in natal horoscope indicates delay in marriage.

## **2. Rahu and Ketu in the mirror of horary astrology:**

As the nature and behaviour of retrograde planet is always a riddle and complex matter to understand, similarly the nature and behaviour of Rahu and Ketu have always been a mystery to astrologers. A section of astrologers consider these two shadow planets to offer results like other planets and like other planets their strength, exaltation, debilitation, aspect etc must be taken into account while delineating results. Another section of astrologers treats Rahu and Ketu as mere shadow planets and does not take into account their aspect, strength based on debilitation or exaltation etc. Our object is not to fall in any controversy regarding various views of astrologers on the nature of Rahu and Ketu. But we want to bring to the knowledge of readers the *modus operandi* of Rahu and Ketu which has been found to be correct after a long research carried over more than a decade.

According to Hindu mythological stories a ferocious battle ensued between gods and demons during churning of ocean. Both the parties agreed over the pact that whatever begotten through

churning of ocean would be equally distributed between both the parties i.e. gods and demons. As a result of churning of ocean a pot of nectar was obtained. Since gods were of the opinion that demons would create large-scale destruction if they got nectar, gods planned to trick the demons. Lord Vishnu in disguise of a beautiful woman appeared and suggested that gods and demons sit separately in queue so that everybody could get a drop of nectar. Rahu, the demon, doubted the plan and sat in the row among the gods in disguise of gods. As soon as Rahu got the nectar and drank it he was detected by Sun and Moon. Sun informed lord Vishnu who in turn immediately beheaded Rahu but by that time nectar had reached the throat of Rahu, so he was half immortal and could not be killed. Neither the parts of the body could unite together. The head part was called Rahu while the part below head was called Ketu.

**Analysis of the Story:** Mythological stories, if properly understood and analyzed, reveals hidden facts regarding behaviour and nature of planets. The above story reveals following facts:

1. Rahu was the only demon that could detect the plan of gods—therefore an intelligent planet.

2. Rahu has nectar in his throat – therefore, also gives auspicious results.

3. Rahu was detected by Sun and Moon – therefore an enemy to Sun and Moon.

4. If Rahu is conjoined or associated with Sun and Moon the native suffers on account of his father and mother. He or she is obstinate, egoist, a perfectionist liar and dramatic in behaviour.

5. Ketu is an abortive and confusing planet because nectar could not reach the stomach of Rahu. Ketu represents this part.

### **Modus operandi of Rahu and Ketu:**

1. Rahu and Ketu give the results of those planets with which they are conjoined.

2. The result of the sign they have occupied.

3. The result of the lord of the constellation in which they are posited.

4. The result of the planets by which they are aspected.

### **Importance of Rahu and Ketu in horary astrology:**

1. If Rahu is placed in ascendant the ascendant is completely spoiled. The desire of the querent is not fulfilled.

2. The results are intensified and offered by Rahu and Ketu if they happen to be either ruling planets or occupy the sign of ruling planets.

3. If Rahu along with Sun or Moon is placed in ascendant and Sun or Moon being ascendant lord even then ascendant is considered to be spoiled.

4. Rahu or Ketu in ascendant and aspected by Jupiter portends fulfilments of desire after some delay and problems.

### **3. What will be the result of query:**

After a long research it has been found by us that following tips are quite useful for the readers in order to judge the result of the query.

#### **The result will be positive:**

i) If the sub-lord of first cusp in direct motion is posited in eleventh house the desire of the native is fulfilled. There will be some delay or impediments if sub-lord of first cusp is placed in eleventh house in the sign of debilitation.

ii) If lord of ascendant is placed in eleventh house the desire of the querent is fulfilled. If lord of ascendant is debilitated but placed in eleventh house even then desire is fulfilled. If lord of ascendant is retrograde planet but posited in eleventh house, the desire is fulfilled after delay, dejection and such problems.

iii) If sub-lord of first cusp or lord of ascendant is placed in fifth house then desire is fulfilled. Saturn being sub lord of first cusp or lord of ascendant in fifth house fulfils desire after delay and mental torture.

iv) Fulfilment of desire is promised if the sub-lord of concerned house is having connection with either fifth house or eleventh house. Suppose in Leo ascendant if Mars, the ruler of fourth house, or cusp or sub-lord of fourth cusp is having connection with fifth or eleventh house then query related with purchase of a property is fulfilled.

v) If Jupiter aspects ascendant or the cusp concerned with the query then desire is fulfilled.

vi) If the sub-lord of first cusp becomes one of the ruling planets

### **The result will be negative:**

i) If ascendant lord of the horary chart is in debilitation and not placed in eleventh house.

ii) If lord of the ascendant of the horary chart is retrograde.

iii) If the sub-lord of first cusp is retrograde and also not placed either in fifth or eleventh house.

iv) If lord of the ascendant or sub-lord of first cusp is placed either in eighth house or twelfth house.

v) If the sub-lord of the concerned cusp or lord of the concerned house is retrograde or placed in eighth house.

vi) If Rahu or Ketu is placed in ascendant.

vii) If the sub-lord of eleventh cusp or lord of the eleventh cusp in either retrograde or placed in the sign of debilitation.

viii) If Saturn is placed in the ascendant or aspects ascendant.

ix) If ascendant lord or more than one planets among the ruling planets are retrograde.

x) If ascendant is not aspected by Jupiter or other benefic planets like Venus, Mercury and Moon.

### **4. Importance of Omens in Horary Astrology:**

Horary astrology is the best method to know the will of God. Each and every particle of this universe vibrates due to the cosmic

will. This vast universe is the outcome of divine dance of matter and spirit; therefore nature itself wants to convey its message to mortals (*Jeeva*) through various omens. Some people listen to nature while others take them as ordinary events and ignore the voice of nature.

Omens have great utility in prediction in horary astrology and many queries can be answered simply on the basis of keen observations of omens presented by nature at the time of query. I share a few experiences regarding utility of omens:

One day a friend of mine came to my residence to know the time and date of his promotion. He mentioned one number that I did not recall because this incident was five years old. But I remember the number mentioned by him showed Libra ascendant and the lord of sixth house (service) Jupiter was exalted in tenth house. As I was about to make the prediction lights of my residence went off. I thought for a while and said that he had to wait for promotion for some time. While we were discussing the promotion episode the light came back. I told him that the promotion list that was to be issued within three days would not find his name. The next list would give him promotion. Exactly the same happened. Here the omen was light that helped me to reach right conclusion about the query. This prediction was made in the presence of other officers, who took the incident as a miracle.

One more incident will reveal the utility of omens. One day a few persons were going to attend some important job. As soon as they came out of their office and sat in the car a boy aged around seven years crying loudly came before the car and also sat in front of the car. I noticed the event and advised the gentlemen to come back to office because the task for which they were going would not be accomplished. They did not heed the advice and went and came back without any gain but suffered some kind of humiliation there.

There are many more events that can depict the importance of omens or voice of nature. Any astrologer who is accustomed to listen to the voice of nature can make prediction even while mov-

ing on road. Every moment such omens are taking place around us. Sometimes we recognize them and beautifully blend in the prognostications of future. Horary astrologers must have keen observation about such omens while attending horary query. A few cognizable omens like entry of child into room, behaviour of child, direction occupied by querent who enters the room at the time of query, light gone off or come, falling down of water, telephone call and discussion made over telephone etc must also be taken into account. Besides that omens can be presented into any form, sound, shape etc by the nature and how these are to be apprehended depends on the intelligence of the astrologers. We intend to advise readers that many books provide information regarding utility and description of a particular omen but judgement of astrologer on any omen is much more useful than any bookish knowledge.

## Cuspal and Traditional Chart

Indian astrology has divided the zodiac equally into twelve parts. Each part measures  $30^\circ$  in longitude, hence twelve parts count  $360^\circ$  of zodiac. On the basis of this division sign or *Rasi* too has been considered to be of  $30^\circ$  in longitude. The chart prepared to read the results as per K.P. is called *Cuspal chart* and it is based on *Placidus system of Arch division*. How to work out cusp has been dealt with elaborately in previous chapters. The reading of nativities on the basis of Cuspal chart is western concept. Western astrologer goes more by astronomical principles than perception. They take into account degree-to-degree motion of the planets and the particular relation they form with other planets and cusps which is known as the phenomenon of aspects. This concept of aspect is also different from the Indian. As per Indian astrology each part of the zodiac is always  $30^\circ$  in longitude – neither more nor less while in Placidus system each house varies in longitudes. One house may be of  $30^\circ$  or more than  $30^\circ$  or less than  $30^\circ$ . But the total of zodiac is always  $360^\circ$ . Cusp means the beginning of the house. Due to variation of longitudes in each house in Cuspal chart a planet seems to be placed in a different house when compared with that of the chart prepared as per Indian systems. This discrepancy creates confusion in the mind of astrologers and often put them in dilemma pertaining to the different placement of planets in Cuspal chart and Indian chart. It has been found by us that horary question must be solved through Placidus system i.e. Cuspal chart.

Indian astrology recognizes the importance of sign (*Rasi*) and on the basis of it the strength of the planet is judged. In K.P. such importance has not been given to the sign and astrologers following

it do not mind the planet which is placed in second house being placed either in ascendant or twelfth house in Cuspal chart. They are much more concerned with the longitudes of cusps and planets. Now the question is whether the importance of sign be recognized or not: Which method should be adopted to answer horary query? It is our humble suggestion the astrologer must always open his mind to welcome new ideas and new concepts. The importance of sign cannot be ignored and the relation between sign and planets viz. a cusp be studied properly. Sign (*Rasi*) shows the area of influence and also the strength, nature and behaviour of a planet in a particular area. Apart from that in many questions it is only through the help of sign that the queries are solved. Questions like theft, description of thief, direction where one will move etc are answered on the basis of the sign falling in a particular *Bhava*. Now the question is how to get rid of the discrepancies pertaining to placement of planets in Cuspal chart and Indian traditional chart. We are solving such a major discrepancy, which is explained with the help of examples: -

Suppose a querent gives number 27 for any question. This question was solved on a particular date and time. Horary number 27 means Taurus ascendant at  $7^{\circ}-0'-0''$ . Now at this particular date let us say Venus is in Taurus sign at  $4^{\circ}-30'$ . Indian traditional method of casting horoscope shows Venus in ascendant while Cuspal position shows Venus to be in twelfth house because 1st cusp begins from  $7^{\circ}-0'-0''$  and the longitude of Venus is  $4^{\circ}-30'$ . Therefore, Venus will shift back to twelfth house. Astrologers must not read the influence of sign, planet and cusp separately but approach to integrated relationship among them. Now this approach of integrated relationship be applied to understand the effect as well as influence of Venus over twelfth and first cusp. Venus is at  $4^{\circ}-30'$  and is in direct motion and is  $2^{\circ}-30'$  away from ascendant. It means Venus is advancing towards ascendant. Therefore the astrologer must predict that Venus in twelfth house shows temporary negations of query but the desire will be materialized in due courses of time because Venus being a fast-moving planet is ready to leave twelfth house and advancing toward

ascendant. Had this Venus been in retrograde motion then it would have been retracing back from ascendant and would be staying in twelfth house, which shows failure of query. Suppose querent would have given number 36 instead of 27. It means Taurus ascendant at  $20^{\circ}-26'-40''$ . Venus in Taurus sign at  $4^{\circ}-30'$  is  $16^{\circ}$  away from ascendant. It means Venus will give the effect of twelfth cusp rather than ascendant. In order to get the result of next *Bhava* the planet must not be away from cusp more than  $10^{\circ}$ . If the planet is at less than  $10^{\circ}$  from the cusp of next *Bhava* it is assumed to give the result of the same. Late Krishnamurti had included two or three houses to answer any question that showed that every house was concerned with another house and developed the integrated system of prediction. **This integrated approach proved to be more fruitful than the unitary system of prediction followed by Indian astrologers.**

**Example 1 :** One officer who was transferred to another place wanted to know how his tenure would be at the new place?

Judgement : Horary No - 105

DOJ = 25-08-03, TOJ = 6:30 pm, POJ = Agra

When such type of questions are posed before the astrologer then a particular house is not judged but the strength of the whole

chart is to be judged. In this question the officer wanted to know whether his tenure would be peaceful or some dispute would arise. In that particular question the strength of ascendant and instant *Vimshottari Mahadasha* are to be judged.

The sub-lord of first cusp Rahu is placed in ninth house in the star of the sun that is placed in twelfth house. Since sun, the lord of first cusp being placed in twelfth house is not conducive because twelfth is the negation of Ist cusp. The lord and star lord of eighth cusp mercury is placed in ascendant; that is again negative sign. It is also interesting to note that mercury is lord of second cusp placed in ascendant. Ascendant if twelfth to second cusp shows negation to second cusp. Therefore it can be safely said that this officer will not stay longer and will not have peaceful tenure.

At the time of judgement the *Mahadasha* running was that of Saturn and *Antardasa* was of the Sun. Saturn was placed in the star of Rahu and in the sub of Venus. Rahu was placed in ninth house while sub-lord Venus was placed in twelfth house. The sub-lord of Sun was Jupiter that was placed in twelfth house. Thus this *Dasa* and *Antardasa* might bring his shifting from present place because *Decanate* and *Antardasanath* are strongly related with twelfth house. Twelfth house not only shows mental tensions but also indicates unexpected journeys.

**Example 2:** A young man desirous of contesting election on the ticket of a national level party posed the query whether he will get the ticket or not.

He mentioned No. 51.

Horary No = 51

DOJ = 19-09-2003, TOJ = 2: 22 pm, POJ = Morena

## Analysis :

1. In order to ensure political success Vth cusp and XIth cusp must have relation with each other and simultaneously must have connection with Jupiter and Mars. Jupiter and Mars together show courage as well as authority.

2. This gentleman will get the ticket or not will be decided by the strength of ascendant.

### Ruling Planets

Ascendant lord = Mercury (R)

Ascendant star lord = Rahu

Moon sign lord = Mercury (R)

Moon star lord = Rahu

Day lord = Venus

Ticket will be given to him or not –

1. Ascendant is occupied by Saturn. Therefore ascendant is quite weak. Ascendant lord mercury is retrograde and lord of 11th house is also retrograde.

Therefore there is no possibility of getting him ticket.

2. The lord of Vth house Venus is debilitated.

3. As has been described in previous chapter if one or more than one ruling planet is retrograde then desire is not fulfilled. Therefore, this young man will not be able to get the ticket.

**Example 3 :** A person wanted to know the judgement of the court, which was to be delivered on 28-08-2000.

Horary No - 161

DOJ = 23-08-2000, TOJ = 3:37 pm, POJ = Agra

A case in the court was dragging in for a long time and the judgement was to be delivered on 28-08-2000. This person wanted to know whether the decision would be in his favour or not.

I declared that decision would not be delivered on 28-08-2000 because of the following reasons :

1. Ascendant is not aspected by any planet. The sub-lord of first cusp is placed in the sub of Rahu, which is very slow planet and also placed in eighth house, a house of hindrance.

2. It has been found by us in a number of cases if at the time of query Saturn and Moon are conjoined the matter is inordinately delayed. In this query Saturn and Moon are conjoined showing delay.

3. The sub-lord of eleventh cusp is Ketu which is a confusing and abortive planet. But Ketu is aspected by Jupiter; therefore it will not give result against the interest of querent but will delay the matter and also maintain status quo of the case.

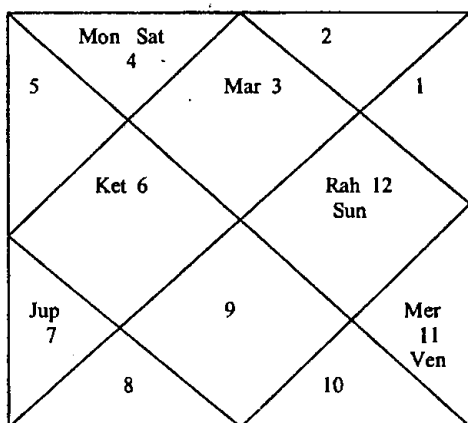

**Comment :** The decision could not be delivered on 28-08-2000 and due to aspect of Jupiter over Ketu later on the case was sent back to district administration with the comment to settle the case within two months.

**Example 4 :** An I.A.S. officer's case was running in the court and decision was to be delivered soon. She in anxious state of mind asked what would be the likely decision of court.

Horary No - 49

DOJ = 6-04-06, TOJ = 11 pm, POJ = Agra

The court case was pertaining to her transfer to another state as a result of the division of the state. She did not want to go to the newly created state and wanted to stay in the original cadre.

### **Analysis :**

1. The ascendant is aspected by Jupiter. The ascendant, lord Mercury too is aspected by Jupiter in ninth house showing fulfilment of her desire.

2. The sub-lord of first cusp Saturn is one of the ruling planets again showing fulfilment of her desire.

3. However it is to be noted here that at the time of judgement of query the Jupiter was retrograde showing delay. Moon and Saturn were together again showing delay.

On the basis of the above analysis it may be concluded that there may be problems but she will stay in her original state.

**Example 5 :** A gentleman from Delhi asked the question over telephone if the judgement delivered by lower court would be stayed or not.

Horary No - 157

DOJ = 26-05-2001, TOJ = 8: 51 pm, POJ = Agra

A court of Delhi sentenced this gentleman for two years. I had already predicted the gentleman before the judgement that he

would be sentenced. The prediction came very true and he was sentenced and three months time was given to file an appeal against the order. This question now was asked in that reference.

Analysis :	Ruling Planets
Ascendant lord	- Mars (R)
Ascendant star lord	- Saturn
Moon sign lord	Mercury
Moon star lord	Jupiter
Day lord	- Saturn

1. Lord of ascendant Mars is retrograde and placed in ascendant showing agitating mind. The sub-lord of 1st cusp Jupiter is placed in 7th house aspects ascendant.

Though ascendant is weak due to placement of retrograde Mars yet not completely damaged due to aspect of Jupiter over ascendant.

2. The sub-lord of 11th cusp is Rahu, which is in the sub of mercury, the lord of 11th house placed in 7th house. Therefore ascendant is aspected by two benefic planets and shows that decision given by the lower court would be cancelled.

3. It is also important to note here that in case of imprisonment either Rahu or Saturn must be strong significator of 12th house. In this query neither Rahu nor Saturn is the significator of 12th house. Therefore further sentence or imprisonment is out of question.

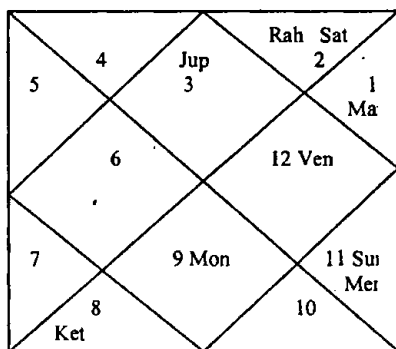

4. At the time of query Jupiter *Mahadasha* and Venus *Antardasha* is running up to 27 May 2002. Venus being in the star of Mercury is stronger, then Mercury will bring relief to the querent. However the fine imposed on the querent by the lower court will not be reckoned due to aspect of Saturn over 12th house.

**Example 6:** A gentleman wanted to know about his health. He gave number - 46

Horary No. 46,

DOJ. = 08-03-02, TOJ = 19-05, POJ = Shivpuri (M.P.)

This gentleman was suffering from headache for the last three or four days and wanted to know the cause of it. Such questions must be studied from ascendant because health good – or bad – depends on the strength of the ascendant and the relationship of ascendant with that of other houses.

The following rules should be taken into account :

(1) If the sub-lord of ascendant is also the significator of sixth house the native never keeps good health.

(2) If the sub-lord of sixth house is also the significator of ascendant.

(3) If the sub-lord or lord of fifth cusp is placed in eighth house the native is likely to be a patient of migraine, brain tumour, etc.

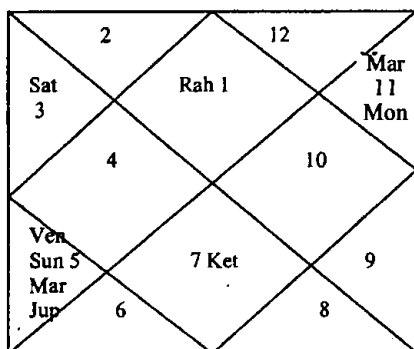

In the above question the sub-lord of first cusp is not having any connection with sixth cusp. The sub-lord of fifth cusp, Jupiter, is not placed in eighth house but having rulership over eighth house. Therefore eighth house is having connection with fifth as well as with ascendant. Therefore he is a patient of headache, which erupts occasionally. But this is not a dangerous case or neither showing any complex problem because neither fifth lord nor sub-lord of fifth cusp is posited in eighth house. This kind of headache is the result of mental exertion due to the fact that sub-lord of first cusp moon is also significator of third cusp (mental exertion) aspecting ascendant. This mental exertion may also be due to some secret activities of mind (connection of eighth to ascendant), which cannot be expressed, and native is again and again thinking over that.

**Example 7 :** One man aged around fifty years posed a query regarding his health problems. He mentioned number 9.

The question was judged on 09-09-03 at 4:13 PM. at Morena (M.P.)

This man was always suffering either due to fever, diarrhoea or blood pressure. He is also weak in constitution.

In order to judge the question related with health ascendant is properly scrutinized along with six, twelfth and eighth houses.

1. The lord of first cusp i.e. Mars and sub-lord of first cusp i.e. Mercury both are retrograde. Rahu is placed in ascendant. In this way ascendant is fairly weak. Though aspect of Jupiter over ascendant will keep the native alive but he will always be ailing with various ailments.

2. The placement of either Rahu or Saturn in ascendant makes one to suffer from blood pressure. In this query Rahu is placed in ascendant showing high blood pressure.

3. The sub-lord of sixth cusp, i.e. Jupiter, denotes windy element. Sub-lord of eighth cusp Mars denotes watery element and twelfth cusp sub-lord Rahu denotes fiery element. Thus querent is suffering due to disequilibria of wind, water and fire elements.

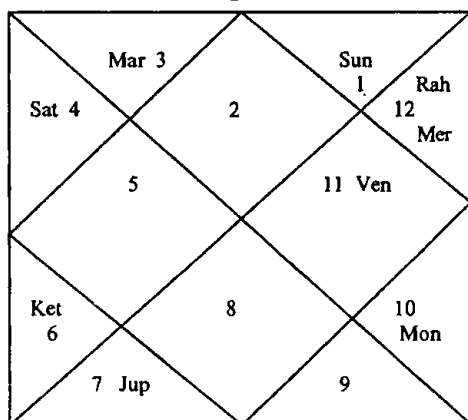

4. Since ascendant is completely spoiled there is no possibility of recovery. It is important to note that Rahu will not let him recover and Jupiter, due to aspect over ascendant, will not allow him to die.

DOJ = 22-04-06, TOJ = 4: 30 pm, POJ = Agra.

For improvement in financial position either the sub-lord of second cusp or star lord in which sub-lord of second cusp is posited must have connection with eleventh cusp.

If the sub-lord of second cusp is also the significator of ascendant then it shows negation of the query.

**Analysis :**

(i) The sub-lord of second cusp Saturn is also the sub-lord if 1st cusp. Therefore it shows negation of the query.

(ii) Saturn is also the lord of eleventh cusp which shows slowly the financial position will improve.

(iii) The ascendant lord Venus is placed which eleventh house in the sign of Saturn. Therefore the banking position will improve but with very slow pace due to influence of Saturn.

**Ruling Planets**

Asd lord	—	Ven
Asd star lord	—	Sun
Moon sign lord	—	Sat
Moon star lord	—	Mars
Day lord	—	Saturn

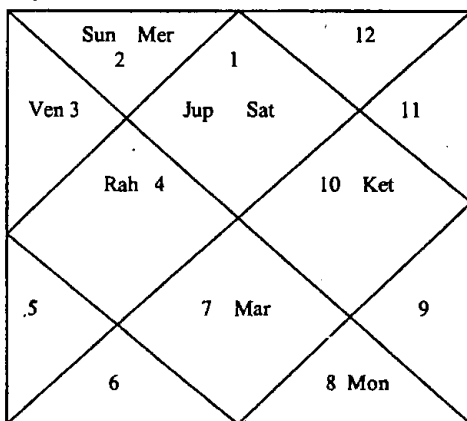

At the time of judgement Mars *Mahadasha* was operating. Mars is placed in second house in the star of Rahu in the sub of Saturn. In this way Mars has got connection with second, sixth and eleventh. Thus Mars *Mahadasha* is more promising for loan, overdraft facilities etc. Through such facilities her financial position may improve.

**Example 9 :** One officer who was suspended wanted to know when he would be reinstated in Job. He mentioned number 11.

DOJ= 29-05-99, TOJ= 6: 43 AM, POJ = Agra

Suspension is a temporary setback to continuous flow of money earned in the form of salary. In order to maintain its cycle the second house is given importance because second house denotes liquid assets and financial position with depreciated or improved banking position. Since matter is related with job sixth house (service) and eleventh house (fulfilment of desire) apart from second house are considered.

		<b>Ruling Planets</b>
Ascendant lord	—	Mars (R)
Ascendant star lord	—	Venus
Moon sign lord	—	Mars (R)
Moon star lord	—	Jupiter
Day lord	—	Saturn

It is always important to see the strength of ascendant irrespective of the nature of the query. Secondly for the quick fulfilment of desire ascendant must have connection with eleventh house.

**Analysis :** (i) The ascendant lord Mars is retrograde and also posited in own star — showing failure of the question.

(ii) Saturn is posited in ascendant.

(iii) Thus ascendant is fairly weak.

(iv) The sub-lord of second cusp Jupiter is in the sign of Mars, the lord of sixth house, and in the star of Ketu, which is placed in tenth house. Thus Jupiter becomes the significator because Jupiter is having connection with sixth house through sign not through star or sub.

(v) Ascendant is not having connection with eleventh house.

(vi) The positive feature is that sub-lord of eleventh cusp, Mercury, is placed in second showing maintenance of flow of money and increased bank position.

(vii) From the above analysis it is evident that after delay and mental torture the querent will be reinstated with following conditions.

(i) The salary of the suspension period will not be paid because the star lord of second cusp moon is debilitated.

(ii) The sub-lord of sixth cusp is placed in twelfth house shows transfer after reinstatement.

(iii) The suspension will be revoked during Jupiter *Mahadasha*,

Moon *Antardasa* and Venus *Pratyantara* which runs from 22-09-99 to 22-12-99. Venus is one of the ruling planets and also lord of second and is placed in third house. Venus is in the star of Jupiter, which is placed in twelfth house. Thus Venus is having connection with third, second and twelfth houses respectively.

The querent was reinstated on 10-11-99 and transferred to Rewa (M.P.)

Horary No. 235

DOJ = 16-9-2003, TOJ = 3:05 pm, POJ = Delhi

The father of a son who is fourth in number asked this question and the old man is a grand-father of to-be-born child. If question is related with first son or daughter then Vth house is considered. For second, third children, 7th and 9th houses are considered

respectively. When the query is related with fourth son so 11th house is considered as the ascendant of IVth son. The query is related with the first child of fourth son – hence 3rd house is Vth (first child) to 11th house (fourth son)

**Analysis :** 1 The sub-lord of 3rd cusp is Rahu and lord of 3rd house is Venus. Venus and Rahu both are female planets i.e. first child will be a female child.

2. The lord of 11th house is Saturn, which is also a female planet.

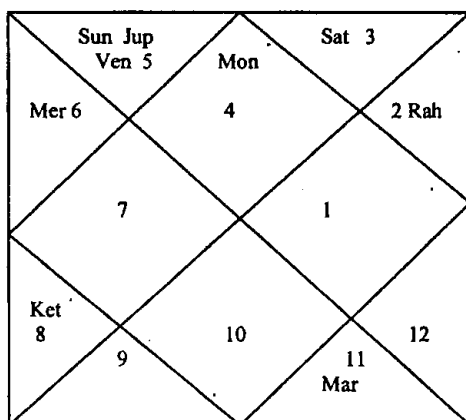

3. The sub-lord of Vth cusp (7th to 11th denoting wife of fourth son) is Rahu and the lord is moon. They both are female planets. Therefore the unborn child is likely to be female.

### **Ruling Planets**

Ascendant lord — Moon

Ascendant star lord — Saturn

Moon sign lord — Moon

Moon star lord	—	Mercury
Day lord	—	Mars (R)

The question is not related with transfer. Transfer or shifting from a particular place takes place when significator of 3rd, 10th and 12th house operates.

### **Analysis of the query :**

1. No - 74 as mentioned by querent denotes cancer ascendant, which is a movable sign. Moon, the planet of journeys, is placed in ascendant. Therefore this officer will not stay for a longer time at his present place.

2. The sub-lord of 3rd cusp is Ketu, which is placed in IVth house in the star of Jupiter and in the sub of moon. Both Moon and Jupiter are placed in ascendant fourth house denoting present place. The sub-lord of 10th cusp is Jupiter, which is placed in ascendant. Therefore both Ketu and Mercury are not having connections with 12th house. Therefore he is not likely to be transferred in near future.

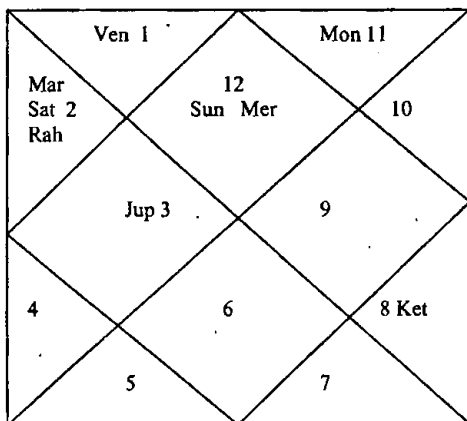

3. At the time of query Mercury *Mahadasha* and Mars *Antardasha* is running up to 15-12-03. Since Mars is retrograde he will not be transferred up to 15-12-03.

**Example 12:** Will I get through P.G examination of M.B.B.S?

Horary No. 242

DOJ = 09-04-02, TOJ = 7:20 pm, POJ = Bhopal

A girl could not be selected in her first attempt for post-graduation degree after M.B.B.S. Second time she appeared in the competition and asked the question.

**Analysis :** (i) The *dasa* of fourth, ninth and eleventh house must operate to ensure success in examination.

(ii) Significators :

(a) Fourth house : Mercury, Sun, Ketu. Mercury is strong significator being in its own star.

(b) Ninth house : Ketu, Mars, Rahu

(c) Eleventh house : Saturn

Thus the Significators of above houses are: Mercury, Sun, Ketu, Mars, Rahu and Saturn.

Ruling Planets		
Asd lord	—	Jupiter
Asd star lord	—	Mercury
Moon sign lord	—	Saturn
Moon star lord	—	Jupiter
Day lord	—	Mars

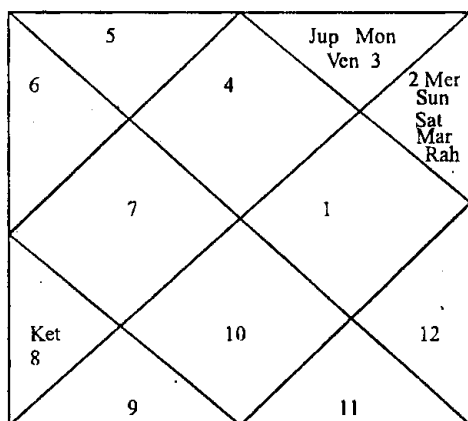

**Mahadasha :** Jupiter *Mahadasha*, Jupiter *Antardasa* and Mercury *Pratyantara* operate from 9-04-02 to 21-09-02. Jupiter is *Lagan* lord and very strong ruling planet because Jupiter is repeated twice among ruling planets. Mercury is the lord of fourth house and very strong Significators of fourth and ninth (star lord of ninth cusp) also eleventh house (in the sub of Saturn lord of eleventh). Thus this *Dasa* brought success to querent. Her result was declared on 15-04-02. At the time Mercury *Pratyantara* was operating.

**Example 13:** One young lady doctor asked the question whether she would be selected in M.D. examination?

Horary No - 64

DOJ = 15-05-02, TOJ = 8:00 Pm, POJ = Bhopal

1- The sub-lord of Ist cusp, Mars placed in eleventh house, shows incomplete fulfilment of desire because the lord and star lord of Ist cusp i.e. Moon and Jupiter both are placed in twelfth house. However sub-lord of Ist cusp is having connection with

eleventh house; therefore her desire would be fulfilled partially i.e. she may be selected for diploma course rather than degree.

**Mahadasha :** At the time of judgement Rahu Mahadasha and Mercury *Antardasha* were running up to 12-06-02. Mercury, the lord of fourth house and one of the ruling planets, is retrograde. Therefore Mercury will not bring success to her. However Mercury is in the star of Moon, which is placed in twelfth house that she may go out of India for completion of her post-graduation in medicine. This too will happen when Mercury attains direct motion.

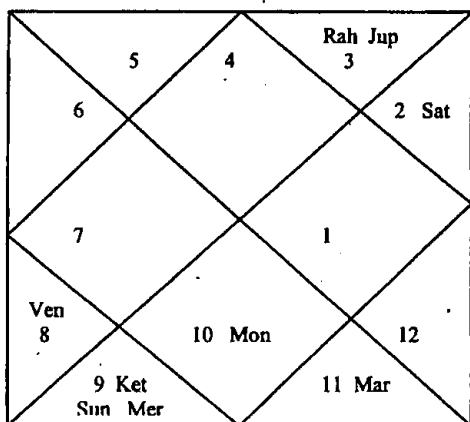

**Comments :** It is imperative to mention here that to judge queries of various natures different houses are studied. But in horary astrology major thrust is always given to ascendant and 11th house. A particular question may be tackled in various ways. It is not necessary every time to know the result of a particular question. Significators of concerned houses may be worked out. Significators are worked out only when query seems to be affirmative by judging the strength of ascendant and 11th house. If query seems to be negative then one should not proceed further. Even at the time of judgement of query, ruling planets indicate affirmation or negation of the query. The main object behind working out Significators is to reach out timing of events if query seems to be positive. In various examples given in the book Significators have not been worked out due to above reasons.

Horary No - 78

DOJ = 17-12-01, TOJ = 4:30 pm, POJ = Agra

The boy is the son of the eldest's son of the querent. Therefore fifth cusp will denote the ascendant of eldest grand son and fifth to fifth is ninth cusp. Hence ninth cusp will denote grandson.

1. In order to get through any examination – whether it is competitive examination or college examination– the *Dasa* and *Antardasa* of 4, 9, and 11 must operate.

2. The fourth house from ninth (grand son) is twelfth. 9th house from 9th is fifth and eleventh house from ninth is seventh. So houses 12, 5 and 9 will be judged for the success of grandson.

### Significators :

(i) Twelfth house : Mercury (lord of twelfth), Venus (in the star of Mercury), Rahu (sign occupied of Mercury and aspected by Venus): Thus the significator of twelfth cusp are Mercury, Venus and Rahu.

(ii) Fifth house : Ketu, Mercury, Rahu, Sun, Moon, Mars.

**Note :** *How to find out significator has been described in chapter eight.*

Seventh house : Mars, Rahu, and Saturn

Thus the significator are Mercury, Ketu, Venus, Sun, Moon, Mars, Rahu, and Saturn. All the planets are significators. The best method to sort out beneficial significators is to match them with ruling planets at the moment of judgement.

### Ruling Planets

Asd lord	–	Moon
Asd star lord	–	Mercury
Moon sign lord	–	Saturn
Moon star lord	–	Sun
Day lord	–	Moon

*Mahadasha* operating : Sun *Mahadasha* and Jupiter *Antardasa* runs up to 27-04-02. Since Jupiter is not the ruling planet the boy will not get success in examination. The boy will be selected in Sun *Mahadasha* and Saturn *Antardasa* because Saturn is not only significators but also lord of seventh house i.e. eleventh to ninth house. Sun is placed in fifth house, which is 9th to 9th house. The *Dasa* of Saturn in Sun *Mahadasha* will operate from 27-04-02 to 7-05-03. In this *Dasa* and *Antardasa* too the *Pratyantara* of Mercury will bring success to the boy.

DOJ = 24-1-03, TOJ = 8:10 am, POJ = Agra

1. For purchasing of land 4th, 2nd, 11th and 12th houses are to be judged. The sub-lord of fourth cusp is Rahu, which is placed in 6th house showing dispute in this land. It is important to note that whenever there is a connection between fourth and sixth house dispute arises.

2. The lord of 1st cusp, Mars, is placed in 12th house and ascendant is aspected by Saturn this shows weakening of ascendant. Saturn also aspects 4th house again showing some kind of disputes.

3. Either the lord or sub-lord of 4th cusp is not having any connection with 11th house i.e. this property will not fetch any gain to the buyer.

4. To whom we deal is shown by 7th house. The placement of Saturn in 7th house clearly indicates the doubtful integrity of the seller. On the basis of the above analysis we advised the querent not to purchase this land.

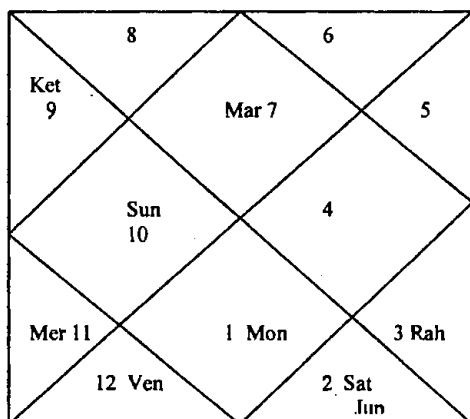

**Comment :** Later on we came to know that this land was already sold to two persons who had filed cases in the court pertaining to the dispute.

Horary No - 57

DOJ = 6-9-03, TOJ = 3.30 pm, POJ = Agra

The question is about the only son of this woman. So 5th house will be taken as the ascendant of the son.

**Analysis :** The lord and sub-lord of 5th cusp is Venus, which is placed in 3rd house. Venus is posited in his own star and in the sub or Mercury, which is retrograde. Mercury too is placed in 3rd house. 3rd lord, Sun, is also placed in 3rd house.

2. Third house happens to be 11th to 5th house. In this way 11th house is well fortified due to placement of three benefics. This ensures admission of son in medical college but he would have to wait because Mercury is retrograde but placed in 11th house. As soon as mercury attains direct motion the son will get the admission.

### Ruling Planets

Ascendant lord	—	Mercury (R)
Ascendant star lord	—	Jupiter
Moon sign lord	—	Jupiter
Moon star lord	—	Venus

3. As far as the desire of mother is concerned it is fulfilled because ascendant is aspected by benefic planet like Moon. Secondly the sub-lord of 1st cusp Saturn is posited in the star of Rahu, which is placed in the 11th house showing fulfilment of desire.

**Horary No - 124**

**DOJ = 5-4-00, TOJ = 8.30 pm, POJ = Agra**

**Analysis :** The to-be-born child will be female because of following reasons.

(i) Horary ascendant itself falls in female sign.

(ii) The sub-lord of 5th cusp (1st child) Mercury is placed in 5th house. Therefore ascendant and 5th cusps both are influenced by female planet.

**Comments :** The wife of the querent gave birth to a female child on 14-5-00

Certain rules related with the queries of the to-be-born child and others:

(i) In horary query the first child is denoted by fifth house. The second child is denoted by 7th house. The third child is denoted by 9th house, the fourth child is denoted by 11th house and so on. E.g. A couple has three children. The eldest child will be shown by 5th house, the second child is shown by 7th house and the youngest child is shown by 9th house. The same rule will be applicable to the horoscope of either husband or wife.

2. In order to make verdict over the to-be-born child the fifth house of the querent mother or father will denote first child. As it is clear from the above query, for the sex determination of the to-be-born second child 7th cusp will be considered.

(iii) A deep study of signs, planets and stars is must while making such type of predictions.

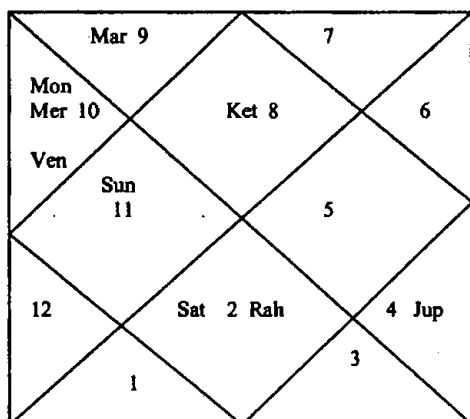

(iv) Whatever may be the nature of query the influence over ascendant must be properly considered.

**Horary No - 165**

**DOJ = 27-2-03, TOJ = 7 pm, POJ = Agra**

**Rule:** In order to judge such type of queries following rules should be kept in mind:

(i) If the sub-lord of 5th cusp or lord of 7th cusp is having relation with 7th and 11th houses then love affair is materialized;

otherwise not.

(ii) If the lord of 7th house is placed in 5th house then there are many love affairs.

(iii) If the lord of 7th house is placed in 11th house in its own sign, friendly sign or exaltation sign, then success is ensured in love affair.

(iv) If the sub-lord of 7th cusp is Mercury and placed in dual sign, it denotes many love affairs.

(v) If the sub-lord of 7th cusp or lord of 7th house is placed in 2nd house many love affairs possible.

**Analysis of the query :** (i) The sub-lord of Vth cusp is Jupiter, which is placed in 8th house in the star of Saturn which is placed in 7th house. In that question the connection of 5th and 7th is formed to show a kind of infatuation or attraction but will not turn into any bond of permanent ties because 11th house is not in the picture.

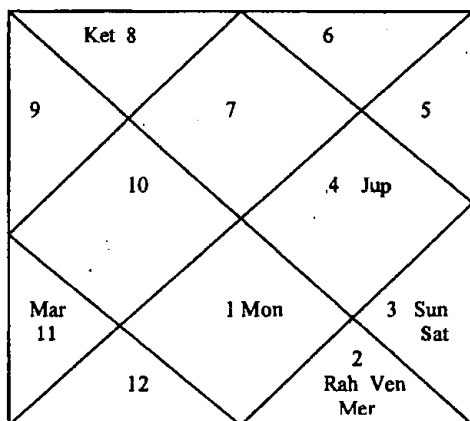

(ii) The sub-lord and lord of 5th cusp, Jupiter, is retrograde—i.e. love affair will not materialize and Jupiter having connection with Saturn will cause ultimate separation.

**Example 22 :** A clerk working in an institution gave a huge amount of money to a party. The party refused to pay back his money. Now the querent wanted to know whether his entangled money would be recovered or not?

Horary No.- 74

DOJ = 16-3-02, TOJ = 3:45 PM, POJ = Agra

Either to borrow or to take overdraft facilities or recovery of money are all judged from the 6th house and there are certain rules in this regard.

**Rules :** 1. The querent will not get back his entangled money if the sub-lord of sixth cusp is retrograde. The rule is also applicable to borrowing or overdraft facilities.

(ii) The querent will get back his money if the sub-lord of 6th cusp is in direct motion. He may also get loan or overdraft facilities.

(iii) If the sub-lord of 6th cusp is Saturn then after much mental torture one gets frenetic and only meagre sum – of what he expects.

(iv) Mercury being the sub-lord of 6th cusp facilitates the help of mediators. The recovery is fast.

(v) Jupiter indicates mediation of court.

(vi) Government or court will help the querent if sub-lord of 6th house happens to be Sun.

(vii) Both the parties will settle the matter amicably if either Moon or Venus happens to be the sublord of sixth cusp.

The nature of the result will depend on the lord of constellation in which Rahu and Ketu are posited, if they happen to be sub-lord of 6th cusp.

(ix) In the query related with either borrowing or recovery of money the querent will get only 50% of what he expects if Jupiter is aspected by Saturn.

(x) The same result (ix) will be experienced if Jupiter is associated either with Saturn or Rahu.

(xi) The use of force or threats if Mars happens to be the sub-lord of 6th cusp.

### **Analysis of the query : What will be the result of the query?**

1. The sub-lord of 1st cusp, Jupiter, is placed in 11th house showing money will be recovered. But, Jupiter being in retrogression will dealy the matter.

2. The sub-lord of 1st cusp, Jupiter, is also one of the ruling planets.

3. The sub-lord 1st of VIth cusp, Venus, is not retrograde. So above analysis shows that the querent will get back his entangled

money. But he will get part of it – not full – because Jupiter is conjoined with Saturn and Rahu (Rule X).

### **Ruling Planets**

Ascendant lord	–	Moon
Ascendant star lord	–	Saturn
Moon sign lord	–	Jupiter (R)
Moon star lord	–	Mercury
Day lord	–	Saturn

The sub-lord of 6th cusp is Venus which is posited in the star of Rahu and in the sub of Saturn. Both Rahu and Saturn are placed in 11th house. This clearly shows that querent will have to satisfy himself with a part of the entangled money. He will not be able to get back his full amount.

Moon star Lord — Mercury

Day Lord — Mars

**Rule :** One will borrow either from a friend or from an institution if the sub-lord of 6th cusp is posited in the constellation the lord of which is not retrograde.

**Analysis :** 1. The desire of the querent will be fulfilled because ascendant is aspected by Jupiter and Venus along with Saturn and Mars. The aspect of Mars over ascendant will not have deleterious effect because Mars itself is ascendant lord. However the aspect of Saturn over ascendant will delay the matter.

2. The Sub-lord of 1st cusp Moon placed in the star of Mercury is the lord of 11th house but placed in 8th house again showing hindrance and impediment in getting the desire fulfilled. But fulfilment of desire is promised because ascendant is having connection with 11th house through Mercury.

3. The sub-lord of 6th cusp is Rahu which is posited in the star of Jupiter and in the sub of Mars. Both Mars and Jupiter aspect ascendant, i.e. definitely he will get the loan from bank.

**Comments :** It is the rule of thumb of horary astrology and especially astrology based on K.P, if the sub-lord of 1st cusp becomes ruling planet then the desire of the querent, how odds it may be, is fulfilled.

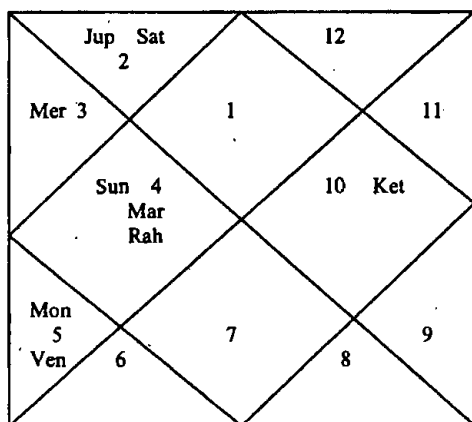

2. In the query it is important to know that the native will not get the loan that he expects because Saturn is associated with Jupiter. It has been found by us if Saturn is associated with Jupiter the querent does not get what he expects but less.

**Analysis :** The sub-lord of 6th cusp Saturn is posited in the constellation on Sun and in the sub of Mercury. Saturn is placed in 11th house while Sun and Mercury are placed in 4th house. Saturn is also associated with Jupiter in 2nd house which shows the

borrowing amount will be less than what he expects to borrow. At the time of query *Shani* (Saturn) *Partyantardasa* in Venus *Mahadasa* was operating from 13-6-03. The Pratyantar of Saturn will operate up to 13-10-00. Horary No - 5

DOJ = 14-1-03, TOJ = 4:50 pm, POJ= Shivpuri (M.P.)

**Analysis :** 1. For litigation always takes 6th cusp. If there is litigation between husband and wife or son and father, that involving property, service matter etc are always judged from the 6th house. This question is about the property litigation.

2. A dispute may arise if the lord of 11th house or sub-lord of 11th cusp is placed in 6th house.

3. Sub-lord of 4th cusp Ketu is placed in 8th house along with Venus. The lord of 11th house mercury though retrograde is placed in the star of Venus. Ketu is having connection with 8th house which shows delay and impediments. But both the parties will reach an agreement out of court due to Venus. Venus, the sub-lord of 11th cusp, is associated with 11th cusp sub-lord Ketu in 8th house. So the matter will be settled amicably.

**Comments :** It is to be noted in this particular question that querent himself was in a state of confusion and there is likely to be many questions in his mind. It is evident from the fact that at the time of query Moon and Rahu were together. This shows ingenuity or insincerity of the question.

Horary No. 49

For more than one marriages following rules will help:

**Rule 1** – The sub-lord of 1st cusp either be Mercury or Jupiter.

2. The sub-lord of 7th cusp be either Mercury or Jupiter or any other planet but must have occupied dual sign in horary chart.

3. The sub-lord of 7th cusp must have connection with 2nd as well as the 7th house.

**Analysis :** On the basis of above rules it can be predicted that she will not get remarried because the sub-lord of 7th cusp is neither Mercury nor Jupiter. Secondly the sub lord of 7th cusp i.e. Saturn is not in dual sign.

**Comments :** Rules to judge polygamy, polyandry and illegal marital affairs.

1. There will be discord in married life if the sub-lord of 7th cusp is Mercury and placed in 6th house.

2. If the sub-lord of 7th cusp is Mercury and is also placed in dual sign indicates more than one marriage or many pre-or-post-marital affairs.

3. Same rule can be applied to Jupiter also.

4. The question related with marriage will be negative if the sub-lord of 7th cusp is posited in the star of a retrograde planet. There will be delay and hurdles in marriage if sub-lord of 7th cusp itself is retrograde.

5. The querent will have more than one affair if a sub-lord of 7th cusp is having connection with 2nd house. There is possibility of illegal affairs if Saturn or Mars being the sub-lord of 7th cusp is placed in 11th house.

6. There will be inordinate delay in marriage if at the time of judgement of query moon is having any type of connection with Saturn.

7. The activities of the native would be doubtful if 7th lord or sub-lord of 7th cusp is conjoined with Rahu and placed in 8th house.

8. There is possibility of love marriage if the sub-lord of 5th cusp is posited in the constellation the lord of which is having connection with 7th as well as 8th houses.

9. The sub-lord of 7th cusp and the star lord in which sub-lord is posited indicates about height, colour, nature, behaviour, merits etc. of the future husband and wife.

10. Whether there will be harmony or discord between husband and wife is to be decided by the sub-lord of 1st cusp and 7th cusp. If both the sub-lords are friendly to each other there will be harmony between the couples. If both the sub-lords are enemy to each other there will be discord between them.

11. If the lord of 7th house or sub-lord of 7th cusp is posited in 11th house native gains through wife.

Above cited rules have been found to be absolutely correct by us after a long research. It is our humble request to esteemed readers that they must not reach the conclusion in haste while dealing with the question related with marriage, character, etc. Any wrong verdict may spoil someone's life.

**Example 29 :** A man in anxious state of mind wanted to know about the well-being of his wife.

Horary No. 103

DOJ = 15-2-03, TOJ = 7:18 PM, POJ = Shivpuri (M.P.)

The man who asked this query was recently transferred from Bastar (a district in M.P.) to Shivpuri. Due to failure of telephone lines of Bastar district, he was not able to make any contact with

his wife. So he was very much anxious to know about her welfare. Moon reveals the nature of query. Moon is in star of Saturn which is lord of 7th house. Therefore the question is related with wife and confirmed. Saturn is planet of morbidity and gloom i.e. native is having unnecessary fear about the well-being of his wife.

**Analysis :** The sub-lord of seventh cusp is Venus. Venus is posited in its own star and it denotes that at the time of query wife is staying in the house. She is perfectly all right due to the aspect of Jupiter and Saturn over seventh house.

2. The lord of seventh house Saturn is retrograde and aspects seventh house denoting that wife is feeling depression-like condition. I told him that she was perfectly all right and had been missing; him therefore she had been feeling depression-like condition.

3. Next day the querent left for Bastar and telephoned me on 16-2-03 at 8 pm to say that my analysis was absolutely correct.

**Comments :** Question related with wife, husband, marriage, second marriage, integrity of partners, integrity of the person with whom we deal, polygamy, polyandry etc. are judged from 7th house along with 2nd and 11th houses.

**Example 30 :** When my wife will be appointed?

Horary No. 145

DOJ = 12-10-01, TOJ = 7:35 am, POJ = Agra

In job related questions houses 2, 6, and 10 are judged. Since the question is related with the wife of the querent i.e. 2nd, 6th and 10th are to be reckoned with 7th house and 4th house is 10 to 7th house. Thus houses 8th, 12th and 4th will be judged for this question.

**Analysis :****Ruling Planets**

Ascendant lord	—	Venus
Ascendant star lord	—	Jupiter
Moon sign lord	—	Moon
Moon star lord	—	Mercury (r)
Day lord	—	Venus

**What will be the result of query?** The desire of the querent will be fulfilled due to the following reasons:

1. The sub-lord of 1st cusp i.e. Moon is placed in the star of Mercury. Mercury is placed in 11th house. Mercury is retrograde. As has been said in previous chapters that if star lord or sub-lord of 1st cusp, though retrograde, is placed in 11th house the desire is fulfilled after some delay and obstacles (delay is due to retrogression).

2. The sub-lord of 1st cusp Moon is one of the ruling planets.

3. Mercury is also ruling planet.

Therefore on the basis of analysis the desire of the querent will be fulfilled. Now the question is when she will be appointed: for timing of event signifiers of 8th, 12th and 4th cusps are taken into consideration.

**Eighth cusp :** Rahu, Jupiter, Venus, Mars are the signifiers of 8th cusp.

**Twelfth cusp :** Venus, Mars are signifiers of 12th cusp.

**Fourth cusp :** Saturn is the lone signifier of the IVth cusp.

Thus the common signifiers are Rahu, Jupiter, Venus, Mars, Saturn.

At the time of judgement of the query Mercury *Mahadasa* and Venus *Antardasa* were operating. Mercury is placed in the star of Mars which is strong signifier of 2nd and 6th house. The appointment letter will be given to her when Mercury will attain direct motion. Mercury got direct motion on 23-10-01 and the wife of querent was appointed on 12-11-2001.

In order to undertake foreign journey the following rules are important:

**Rule 1:** If the lord of ascendant is either placed in ascendant or in 9th house then one definitely goes to foreign country.

2. If the lord of 9th house is placed in ascendant in horary chart.

3. If the sub-lord of 11th cusp is in direct motion and having connection with 9th and 11th houses.

**Analysis :** 1. For foreign journey 9th, 12th and 11th houses are studied.

2. In the above horary chart rule (1) and (2) are absent. However rule (3) is partially present.

3. The sub-lord of 11th cusp is Mercury which is placed in the star of Saturn and Saturn is debilitated. Therefore there is no possibility of going to foreign country in near future.

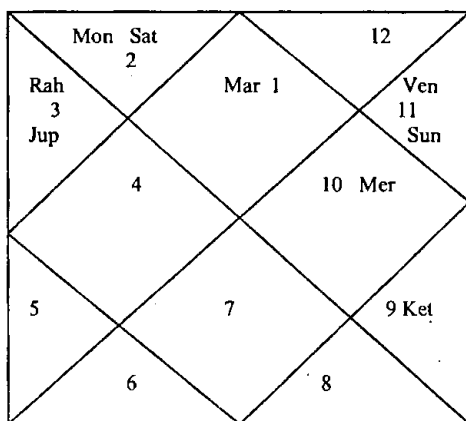

**Foreign visit when?** At the time of query Jupiter *Mahadasa* and Saturn *Antardasa* were operating upto 9-5-01. Jupiter is related with 7th, 3rd cusps and aspects 12th cusp. Therefore Jupiter *Mahadasa* will take him abroad. But Saturn will not help because it is debilitated as well as is not the ruling planet. Mercury and Ketu *Antardasa* will also not be helpful because both are not the ruling planets. The Venus *Antardasa* in Jupiter *Mahadasa* which will start from 20-7-04 will take him abroad because Venus, one of the strong ruling planets, is placed in the star of Mercury, the ruler of 9th as well as 12th house.

**Example 32 : An officer wanted to know about his transfer.**

Horary No. 9

DOJ = 22-2-02, TOJ = 9:05 am, POJ = Agra

Houses 3, 10 and 12 are judged for transfer. Here 10th house is important because 10th house shows place of work. If significators of 3, 10 and 12 are operating, one gets transferred. If significators of 3, 9 and 12 are operating, one proceeds on leave.

Therefore houses 9 and 10 have different influence. 10th cusp shows transfer due to employment while 9 shows shifting of place either due to enjoyment or due to leave.

Moon sign lord	—	Mars
Day lord	—	Venus
Significators 3rd cusp	—	Jupiter, Mercury
10th cusp	—	Mercury, Saturn
12th cusp	—	Mars, Moon, Rahu

In this way significators of 3, 10 and 12 are Jupiter, Mercury, Saturn, Mars, Moon, Rahu.

**Mahadasa** : Mars *Mahadasa* and Moon *Antardasa* are operating from 22-2-02 to 18-8-02.

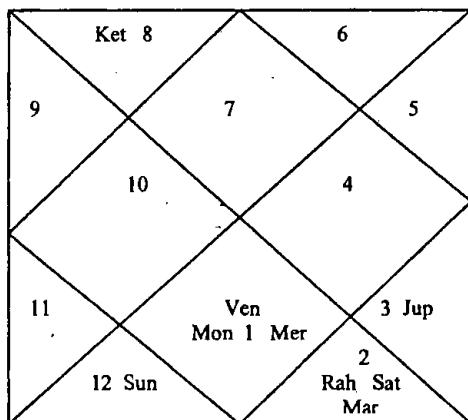

Mars is placed in 12th house. Moon is posited in the star of Mars showing 12th house. The transfer is likely to take place in Mars *Mahadasa* Moon *Antardara* and Venus *Pratyantar*. Moon is very strong significator being in the star of Mars, the ruling planet. Venus is also one of the ruling planets posited in 11th house showing fulfilment of desire. This *Dasa* will operate from 11-7-02 to 16-8-02. During this period transfer is likely to take place.

1. Promotion in near future is not possible because Mars, the ascendant lord, Moon, the sign lord, and day lord is debilitated.

2. Promotion will take place because sub-lord of 1st cusp, Mars, is one of the ruling planets. (An important ruling of the author.)

3. An important condition for the fulfilment of desire:

**Significators :**

2nd house : Ketu, Sun, Mercury, Jupiter, Rahu

6th house : Jupiter, Rahu, Saturn, Venus

10th house : Mercury, Mars

11th house : Venus

Thus common significators are Ketu, Sun, Mercury, Jupiter, Rahu, Saturn, Venus, Mars.

**Mahadasa :** 1. Sun *Mahadasa* and Mars *Antardasa* will run upto 3-12-00.

2. Sun *Mahadasa* and Mercury *Antardasa* will run from 8-8-03 to 13-6-04.

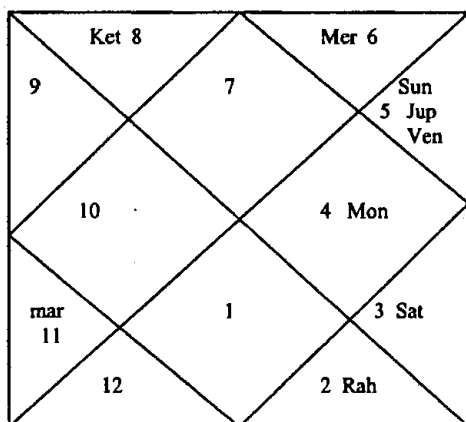

Since Mars is debilitated its *Antardasa* will not bring promotion to him. The promotion is likely to take place in Sun *Mahadasa*, Mercury *Antardasa* and Venus *Pratyantar* which will run from 9-10-03 to 30-11-03 because Venus is the significator of 2nd, 6th and 11th houses.

**Example 38 :** A senior officer in queue to promotion wanted to know when he would be promoted to the post of manager.

Horary No. 129

DOJ = 26-08-03, TOJ = 8:13 am, POJ = Agra

The question is related with the post of manager. Since the post enjoys power and authority as well as facilities. Mars, Jupiter and Venus must be considered along with ascendant, sixth, tenth and 11th houses. The relation of Mars and Jupiter must be seen in order to gain power and authority in any field of life, whether it is political post or service matter.

### What will be the result of desire

1. The ascendant lord Venus is placed in eleventh house showing fulfilment of desire.
2. The sub-lord of first cusp is placed in tenth along with Venus showing power and authority to the querent.
3. Ascendant is having connection with eleventh as well as with tenth houses.
4. The placement of Ketu in ascendant is a negative sign showing delay and hurdles in the fulfilment of desire.
5. From above analysis it is clear that desire of the querent is fulfilled but with some delay and obstacles.

### When his desire will be fulfilled ?

Analysis		Ruling Planets
Ascendant lord	—	Venus
Ascendant star lord	—	Mars (R)
Moon sign lord	—	Moon
Moon star lord	—	Mercury
Day lord	—	Mars
Others	—	Rahu, Ketu

### Signifiers :

2nd house : Mars

6th house : Jupiter, Ketu

10th house : Moon, Sun, Jupiter, Mercury, Rahu, Ketu

11th house : Venus, Mercury, Sun, Moon, Mercury, Rahu.

Thus the common signifiers of houses 2, 6, 10 and 11 are : Mars, Jupiter, Ketu, Moon, Sun, Mercury, Rahu, Venus.

**Mahadasa** : 1. Mercury *Mahadasa* – Mercury *Antardasa* runs upto 3.02.04.

Mercury is the significator of 10th and 11th cusp. Ketu is the significator of sixth, tenth and eleventh (star lord of eleventh cusp) and also posited in the sign of Mars and in the star of Jupiter. Thus the connection of Mars and Jupiter is established. In this way Ketu *Antardasa* will promote the querent to the post of manager before 3-02-05.

**Comments**: The querent was promoted to the post on 16-07-04.

Moon star lord	—	Ketu

### **Significators**

2nd house : Mars

10th house : Moon

11th house : Jupiter, Mars, Sun, Venus, Ketu, Mercury, Rahu

Thus the common significators are— Mars, Jupiter, Ketu, Moon, Mercury, Sun, Venus, Rahu.

**Mahadasa** : Ketu *Mahadasa* – Venus *Antardasa* runs upto 24-12-03. Ketu is the significator of sixth and eleventh cusp while Venus being significator of first cusp is also the significator of eleventh cusp. Therefore this *Dasa* may bring promotion to him.

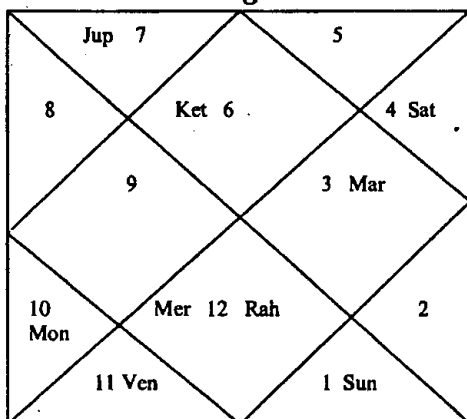

**Comments** : There may be a doubt in the minds of readers as to why Venus *Antardasa* and why not the Sun *Antardasa* will bring promotion to him. The reason is that the sub-lord of the Sun is Saturn which is a slow and delaying planet, while Venus is not only ascendant lord but also in the sub of Mercury, a fast moving planet, in the eleventh house. The promotion does not involve enhanced power and authority because branch manager and senior manager both posts almost have same power and authority; therefore Mars and Jupiter are not associated with promotion, giving planets.

**Analysis :**

1. The sub-lord of eleventh cusp, Jupiter, is retrograde and placed in ascendant. Jupiter is posited in its own star i.e. star lord is also retrograde showing failure of the desire.

2. Tenth house is occupied by Saturn. Saturn shows subordination; therefore, she will have to work in subordinate

position.

3. In order to desire power and authorities Mars and Jupiter must have connection with tenth house. Mars is posited in the star of Rahu and in the sub of Jupiter. Jupiter is retrograde; therefore she is not likely to become D.M. at least till 30 June 06.

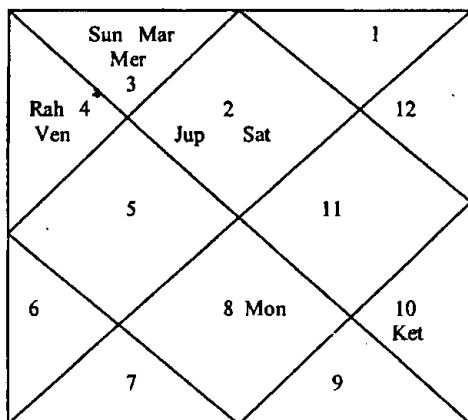

4- The sub-lord and lord of tenth cusp is mercury. Mercury also shows assistant position; not commanding position. Therefore up to 30-06-06 she would have to work as deputy or additional officer under someone.

Horary No - 27

DOJ = 13-07-2000, TOJ = 8:50 am, POJ = Agra

This woman herself was not clear whether she forgot to keep the chain at some place or someone had stolen it. The confusing state of mind is due to the following factors:

1. The significator of mind, Moon, is debilitated; hence showing uncertainty of thoughts. Mercury, the planet of wisdom, is also afflicted due to association with Mars and shows blunt and agitating state of mind.

2. The sub-lord of seventh cusp is mercury, which is posited in the star of Rahu in association with Mars in second house. Placement of Mercury in the star of Rahu shows a case of lost memory. Mercury posited in second house denotes the chain is in the house.

3. The lord of seventh house Mars is placed in second house and seventh house is occupied by Moon. Mars denotes a young man and Moon denotes a young and beautiful lady. Both have kept the chain somewhere in order to play mischief with the old lady with the object of harassment.

Will the chain be recovered? It is shown by ascendant as well as eleventh cusp.

1. The lord and star lord both are placed in third house showing she has to make efforts to get back her chain.

2. The sub-lord of eleventh cusp, Saturn, is placed in twelfth house, which is second to eleventh. The second house automatically involves if the question pertaining to recovery of money or recovery of lost article is concerned.

3. However Saturn due to its nature will delay, torment and torture and when hope is given up the same Saturn will fulfil the desire.

#### **Ruling Planets**

Ascendant star lord	—	Venus
Ascendant lord	—	Sun
Moon sign lord	—	Mars
Moon star lord	—	Mercury
Day lord	—	Jupiter

At the time of judgement of query Mercury's *Mahadasha*, Venus' *Antardasha* and Sun *Pratyantara* were operating. Since *Dasanath*, *Bhuktinath* and *Pratyantara* lords are ruling planets the lost chain will be found.

The lady informed after seven or eighth days that she got her lost chain.

Comments : The eleventh house is considered for the recovery of lost articles or lost money or stolen articles. The description of the thief or the persons involved in mischievous activities is made from the seventh house.

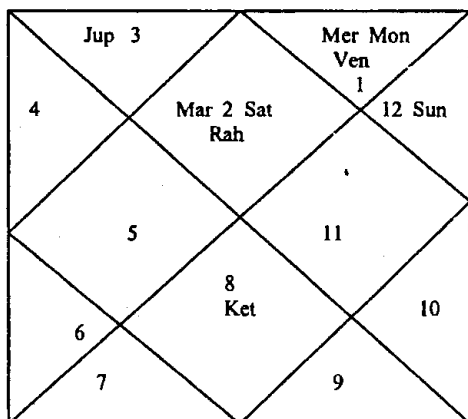

In such type of cases houses seventh and eleventh are to be considered with a serious consideration of ascendant.

Moon sign lord — Mars

Moon star lord      —      Ketu

Day lord              —      Sat

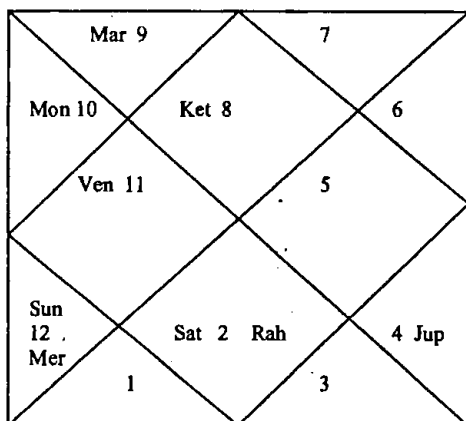

Sub-lord of 7th cusp is Jupiter, which is placed in the star of Rahu. Rahu denotes peons of the office. Therefore file is stolen by the peon. Rahu is associated with Saturn and Mars in 12th house; so other peons of the office are also involved in this activity. File cannot be recovered because the sub-lord of 11th cusp is Jupiter having connection with Rahu in 12th house and 12th is the negation of the ascendant.

There are certain facts related with this query, which we would like to bring to the notice of the readers. This institution already had a chairman. The querent wanted to be the chairman of this institution after disposing of the present chairman.

## Analysis of the query

Ascendant lord	—	Mars
Ascendant star lord	—	Jupiter (R)
Moon sign lord	—	Saturn
Moon star lord	—	Moon
Day lord	—	Jupiter (R)

## Ruling Planets

### What will be the result of query?

1. The ascendant is occupied by Ketu and aspected by Saturn. Thus ascendant is badly damaged. Retrograde Jupiter aspects ascendant; hence it will keep alive hope.

2. For a political post or to get any big post there should be a relation between eleventh and fifth cusp through a benefic planet.

3. The sub-lord of fifth and eleventh cusp is Venus. Venus is in the star of Mars and in the sub of the Sun. Mars aspects sixth house i.e. house of opponents. Mars will subdue opponents. The sun is in fifth house having aspect over eleventh cusp. Venus itself is placed in third house indicating that effort would be required to get the post.

4. As has been said earlier that in order to derive power and authority Mars and Jupiter must have connection.

5. As ascendant is badly damaged and Mars and Jupiter are not related with either tenth cusp or eleventh cusp; therefore there is a doubt in fulfilment of desire.

**Timing of event :** At the time of judgement of the query Jupiter was retrograde. Nothing will happen till Jupiter is retrograde. Jupiter will be in direct motion after 31-07-03. Therefore change will take place after this date.

**Comments :** Due to weak ascendant the querent could not reach the post of chairman but was nominated as director of this institution in the first week of Aug. 2003.

### **What will be the result of query ?**

1. It has been written earlier that the result of query will be negative if the sub-lord or lord of eleventh cusp is retrograde. The lord and sub-lord of eleventh cusp is Mercury, which is retrograde.

2. The ascendant is aspected by malefic Saturn. Saturn aspects Jupiter; therefore Jupiter too has become weak. Therefore he will not continue for a longer time.

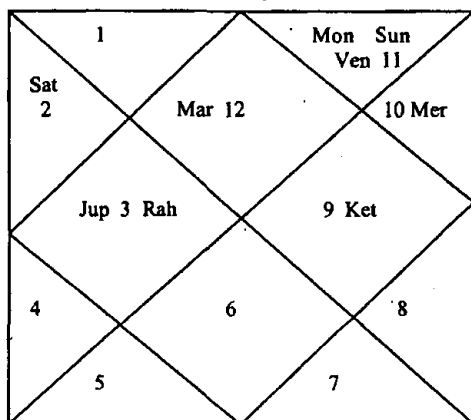

**When he will be removed from the post :** I told him that he would continue for some time because divine Jupiter would protect him. However he would be removed either in Aug. 03 or first week of Sep. 03. Because at the time Mercury, the lord and sub-lord of eleventh cusp, will be retrograde. The querent was removed from the post on 31 Aug. 03.

**Example 45 :** Will I get popularity through astrology? This query is posed by an astrologer friend.

Horary No - 232

DOJ = 13-2-02, TOJ = 3:21 pm, POJ= Bhopal (M.P.)

A fellow astrologer friend who was posted with me in Bhopal and used to do astrology asked the question. For astrological proficiency Mercury, Jupiter and Sun must be well placed in horoscope. Apart from that 4, 5, and 8<sup>th</sup> houses must be occupied by benefic planets. In this horary chart Mercury is placed in 11<sup>th</sup>

house while Jupiter is placed in 4th house. Fifth cusp is influenced by Saturn and Mercury, therefore the querent will take interest in divine knowledge. As far as popularity is concerned the sub-lord of 5th cusp, Jupiter, is placed in 4th house, which shows negation to 5th house. The sub-lord of 11th cusp, Mars, is placed in ascendant, which again shows negation. The ascendant and 4th house denotes that this knowledge will be used to material gains rather than pursuing spiritual achievements. However the connection of 11th house with 5th through Mercury will provide astrological knowledge.

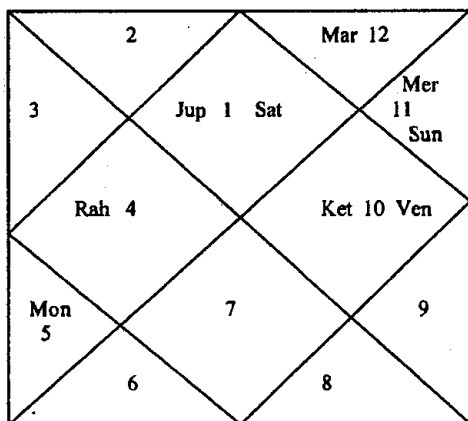

**Comments :** In order to gain mass popularity the 4<sup>th</sup>, 5<sup>th</sup> and 11th house and ascendant must be considered. These three houses either be aspected by benefic planets or be occupied by benefic planets. Simultaneously the significator of popularity i.e. Sun must be placed either in 10th or 11th or 5th house. In that horary chart Sun is placed in 12th house. So it will not bring any distinction in this field.

**Example 46 :** An officer who was facing a departmental inquiry wanted to know if he was likely to be punished in departmental enquiry?

Horary No - 21

DOJ = 20-2-00, TOJ = 6:10pm, POJ = Agra

In order to be punished or imprisonment 12th house is mainly judged. If there is a case of imprisonment then the connection of 12th house with that of 4th house is studied because 4th house is permanent residence and 12th house shows isolation. In case of

service matter 10th house must have connection with 12th house.

**Analysis :** The desire of querent is that he must not be terminated from the service. Whether his desire will be fulfilled or not is judged as follows :

1. The sub-lord of 1st cusp, Mars, is one of the ruling planets. When sub-lord of the 1st cusp becomes one of the ruling planets then desire of the querent is fulfilled. Therefore it is sure that he will not be given severe punishment.

2. The sub-lord and lord of 1st cusp, Mars, is placed in 11th house, which again shows the fulfilment of desire of the querent.

**Whether he will be punished or not?**

He will be given minor punishment due to the following reasons:

1. The sub-lord of 10th cusp, Rahu, is posited in the star of Saturn, which is placed in 12th house. 10th house is having connection with 12th house through malefic planet.

2. He will not lose his job because the sub-lord of 6th cusp (service) is placed in 11th house. Mercury will save his service.

**Comments :** The officer was given punishment of withholding of two increments for one year which was further minimized to the punishment of warning only.

**Example 47 :** A gentleman wanted to sell his house to pay off his market liabilities.

Horary No - 241

DOJ = 09-02-03, TOJ = 8:28pm, POJ = Agra

If the sub lord of fourth cusp is placed in the constellation of a planet the lord of which is either signifier of 3rd and 11th houses or 12th house.

The fourth house denotes possession, which includes land, building but other articles also on which one has ownership right.

Third house is twelfth to fourth house which always shows separation from possessions Eleventh house always shows gains. Twelfth house is natural significator of disposal of possessions as well as payment of market liabilities.

**Analysis :** 1. Retrograde Jupiter aspects ascendant, therefore the desire of the querent shall be fulfilled but with some delay because ascendant lord Jupiter is retrograde.

2. The sub-lord of 1st cusp, Mercury, is one of the ruling planet therefore the fulfilment of desire is very sure.

3. The sub-lord of third and fourth cusps, Mercury, is posited in the star of Sun that is placed in eleventh house showing profit through the disposal of property.

4. The sub-lord of 12th cusp is Rahu which is placed in 2nd house, 3rd cusp falls in the star of moon; therefore payment of market liabilities will be quick (Moon is a fast moving planet).

5. Since Mercury is the major planet denoting selling of house; therefore payment will be received in instalments (Mercury gives in instalments).

6. Rahu is the sub-lord of 12th cusp and shows payment of market debts but even then it will create problems to the querent.

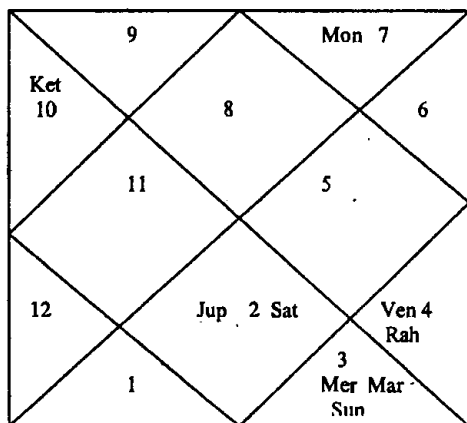

7. Since Mercury is having connection with 7th house due to its lordship, the property will be sold off through the mediation of a property dealer.

**Example 48 :** A businessman wanted to pay off the liabilities of markets. He put the query if he would be able to repay the debts of market.

Horary No - 151

DOJ = 10-7-00, TOJ = 9:11 am, POJ = Agra

If the sub-lord of 12th cusp is posited in the constellation the lord of which is not retrograde, then one is able to pay off debts.

**Analysis :** 1. Ascendant is aspected by Jupiter which shows fulfilment of desire but the sub-lord of 12th cusp, Mercury, is retrograde and placed in the star of Rahu.

2. In horary astrology Rahu is not considered as a retrograde planet because retrograde motion is its natural motion. So in the above analysis, it will not be assumed as retrograde Mercury is posited in the star of retrograde Rahu.

3. Rahu is a very slow-moving planet. It denotes two important facts :

a. Rahu shows increased burden of interest, which accrues in principal amount.

b. It creates unnecessary problems in the repayment of debts. Therefore it may be assumed that there will be inordinate delay in the repayment of market debts.

**Comments :** What is the relation of sub-lord of 12th cusp with repayment of loan is described below :

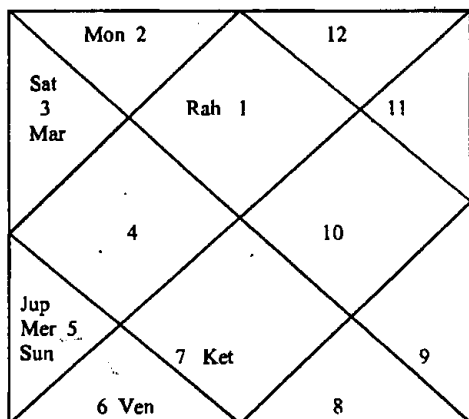

Sub-lord of 12th cusp		Payment position
1. Mercury	—	In instalments
2. Saturn	—	A part of loan is paid, never full loan
3. Jupiter	—	Through legal action payment is made
4. Mars	—	When borrower receives threats of hoodlums
5. Moon	—	Quickly
6. Venus	—	In amicable atmosphere
7. Sun	—	Either falter or through mediation of government

**Example 49 :** An officer of an institution put the query whether vacancies in the institution will be filled up in near future or not.

Horary No - 21

DOJ = 16-9-03, TOJ = 12:35pm, POJ = Agra

The query is related with the institution where many posts of various cadres were lying vacant. The daughter of the querent applied for a post in this institution.

Due to certain political as well as official reasons the whole appointment process came under dispute.

Due to these reasons, the querent wanted to know if appointment would take place or not.

This is a general type of question; therefore no particular house is related with such type of query.

The example has been taken to make the readers understand and also to make them familiar with such type of query in which a particular house is not studied or considered.

Such types of questions are only related with ascendant because these questions are related with desire of the querent. In such type of questions an astrologer has to read the chart to see whether the desire of the querent will be fulfilled or not?

#### **Analysis :**

1. The sub-lord and lord of the ascendant is retrograde showing failure of the query.
2. The sub-lord of 11th cusp, Mercury, is retrograde again showing the negation of the desire.
3. Ascendant is flanked by Rahu and Saturn again showing failure of the desire.
4. Therefore, the appointment will not take place in this institution.

#### **Comments :**

The government later on itself banned the appointments. Since then no single appointment has taken place in this institution.
